Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Milford School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Our school district's Board of Education goals (2021) were designed to continue our systemic focus on "improving" "student" "achievement" "while supporting our learners in the development of 21st-century skills as demonstrated through their progress toward indicators outlined in our Milford Public Schools Vision of the Learner. Our district Vision of the Learner is further supported by our Board of Education Commitments which prioritize growing a learning culture rooted in developmental relationships within the school system and across the community at large with our MPS families and local agencies. A continued focus on ensuring a safe and secure climate that promotes high-quality instructional experiences and opportunities for excellence for each student is central to our Goals and Commitments. Our professional learning opportunities are intentionally aligned to the district improvement strategy of implementing high-quality instruction in every classroom through embedded support for staff. Fostering a climate in which all students, MPS families and staff feel a genuine sense of belonging and inclusion is central to our mission.

We continue to strengthen school, family and community partnership across all levels, elementary, and high school. Educators partner with students and families to provide education, resources and support toward improved learning experiences and outcomes with an increased focus on social-emotional learning. Classroom lessons designed and co-facilitated through the work of our school counselors, social workers and school psychologists support the learning experiences of students in all grades. Experiences were designed to support the transition back to in-person learning as well as to support the teaching and learning experiences as COVID 19 mitigation strategies were applied impacting learning environments across the school day. With a focus on not only attendance, but moreover engagement, a district Student Engagement Team (SET) worked with families to support student learning for all learners. Tiered Interventions included: Home Visits, After School Acceleration Program Offered, S.A.T. (Student Assistance Team) and partnership with our local community support and services agency, BRIDGES of Milford (The Academy). Families partner with staff to design programs including: garden club, ski club and more. Through the efforts of our science department, students participated in workshops offered at Yale, UCONN and the Peabody.

We capitalized on the use of technology to invite families into the classroom virtually and to provide flexible opportunities for families to engage with educators on behalf of their children (ie. open house events, orientation session, parent teacher conferences, parent staffings, PPTs, 504s). Virtual and in-person workshops were offered in which instructional coaches presented strategies to support learning at home. Robust collaboration is fostered within our learning communities and our PTOs and PTAs. We continue to explore how to best leverage technology and social media platforms to share information with our MPS families and the wider city community. Families continue to be annually surveyed regarding school climate and survey feedback on programming and communication drives school and district continuous improvement planning efforts.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Efforts to reduce racial, ethnic and economic isolation as well as to innovate practices toward equitable access and excellent outcomes for each learner continue to be a priority for Milford Public Schools. Collaborative efforts of educators and support staff resulted in revised Social Emotional Learning and Morning Meeting lessons to promote student learning and inclusion. Social groups were implemented to enhance student understanding/empathy and build confidence within the classroom community. Staff developed a series of workshops for our students toward cultivating a community of kindness and inclusivity. The purpose of the activities was to build connections and to increase communication skills amongst peers within the learning community. The workshops served to foster an understanding of empathy and helped students to gain a greater appreciation for individual differences. Our Natural Helpers group trains students in helping and listening skills so that they may connect peers to trusted adults and other appropriate resources.

Hotspots provide Internet access for all learners. Our Technology Department continued to make home visits to provide technical support with individual district-assigned devices. The "Salvation" "Army" "Backpack" "Program" "provide" "new" "backpacks" "full" "of" "school" "supplies" for students in need. Partnership with our local YMCA and Boys and Girls Club ensured affordable before and after-school childcare options for our families. A Gay-Straight Alliance (GSA) was formed to provide an opportunity for a student-led and student-organized group that focused efforts on promoting a safe, welcoming, and school environment for all youth, regardless of sexual orientation or gender identity. A student advisory committee was formed to provide a platform for student voice in the work of diversity, belonging, and inclusion. The district "host's" "students" "through" "the" "Open" "Choice" "program" "as" "well" "as" "continues" "to" "support" enrollment in magnet "school" "programs". " " Wingman Program offered student-led advisory sessions including adults as participants. A Be Kind group created community service projects for inclusivity and support of those in need.

Milford School District

Equitable Allocation of Resources among District Schools

The Milford Public Schools continues to prioritize ensuring equitable allocation of resources among our fourteen schools. Our school district is a 1:1 technology device system. HotSpot devices are issued to families in need of support with regard to Internet access. Our Technology Department collaborates with the Teaching and Learning Department to ensure that families have resources and supports to promote continued learning at home through the use of technology. MPS has established a centralized process for ensuring that all students have access to textbooks, technological tools such as computers, and other instructional materials and resources. Our staffing model has provided a school counselor at each of our eight elementary schools to offer an introduction to comprehensive school counseling and related supports and services for students and families beginning at the elementary level. In addition, our staffing model has expanded to include instructional coaches at the elementary and middle school levels and it is through this resource that embedded professional learning is provided to all staff.
