Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

New Britain's District Theory of Action scorecard embeds multiple access points for parent and community outreach activities. The shift back to an in person model that still allows for students to access supports virtually when necessary has included parent outreach activities. We included a parent and community subcommittee in our re-entry planning last summer. This also included technology support. Recovery programming across PK-12 included significant parent outreach from Lead Teachers and Family School Liaisons at each school site in order to invite students and inform families of programming opportunities. All teachers have been provided time and support to implement learning tools that build their capacity to deliver instruction in unique ways. As part of the District's Theory of Action, the District-wide Attendance Team continues to meet monthly to determine areas of weakness and develop targeted interventions aimed at confronting the root causes of truancy and developing viable solutions. This team's work has evolved to focus on increasing the level of student engagement in their learning. Each Site-Based Theory of Action aligns with the District's plan. Site-based strategies and interventions are customized to the needs of each school community. The Director of Pupil Services and his team have completed an in-depth analysis of the special education programs and services for students with disabilities. The Continuum of Services provides a road map for processes and procedures ensuring that students are receiving support in the appropriate LRE, as well as supporting families in the virtual environment as necessary.

Efforts to Reduce Racial, Ethnic and Economic Isolation

While CSDNB's academic performance data continues to show that English Learners, special education students and students of color are disproportionately lagging behind peer counterparts, professional development opportunities designed to engage staff in culturally responsive teaching were offered. In addition, the District Equity Leadership Team (DELT) created a Equity Transformation Plan focused on leadership development, students at the center, culturally responsive teaching and learning, and family/community engagement and empowerment.

In an effort to reduce racial, ethnic and economic isolation, CSDNB has expanded access to opportunities through the career academies at New Britain High School to incorporate high level skill attainment through coursework in focused areas: business and finance, health sciences, manufacturing, engineering & technology (MET), and public service including education and first responder careers. A strong emphasis has been placed on vertically aligning Pk-12th grade with Career Technology Education (CTE) & Science, Technology, Engineering, Arts and Mathematics (STEAM) with an instructional model that focuses on increasing student engagement and technology-based learning. All K-8 students participate in STEAM learning and 6-12 students have increased opportunities in CTE. CTE-STEAM's philosophy is based on a learning by doing inquiry model in order to develop critical thinking and problem solving skills.

CSDNB is committed to high-quality, accessible, culturally responsive curriculum. School-based supports include instructional coaches to ensure effective lesson planning to address the needs of all students. We added the Latinos in Action Program at NBHS and 3 middle schools.

CSDNB ensures that all students have access to a device and internet at home. Students' individual needs and abilities dictate what type of device is the most appropriate developmentally. Technology has expanded our ability to differentiate and meet the needs of our English Learners and students within special education by determining a student's entry point to the curriculum and supporting their individual needs. Access has empowered our students and enabled them to be successful within the general education curriculum.

Equitable Allocation of Resources among District Schools

Central Office administration and staff collaboratively complete a needs analysis when preparing allocations of district resources aligned to student needs. This team focuses on equitable distribution of funding to respond to the needs of all students. A needs assessment is done to develop plans and identify goals that align with the district. All recommendations are presented to the Superintendent for approval. The team meets quarterly to discuss, evaluate and assess the equitable use of funds and resources.

The Partnership, Finance and Accounting departments meet as a Grants Team to monitor the implementation of specific grant protocols and monitor use of funds and grant budget guidelines and requirements. The Coordinator of Partnership and Engagement meets with the building administrative teams to review district procedures and policies surrounding grant applications and spending. Monthly, the Coordinator of Partnership & Engagement presents the status of grant funding, balances and resources to the Superintendent and her Cabinet.
