Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

During the 2021-2022 school year, New Milford Public Schools continued their efforts to ensure robust systems for communication were in place as we welcomed our students and their families back to in-person learning. Regular communication with families and community stakeholders was critical to ensure the safety and wellness of students, faculty, and staff. This was accomplished through our regular communication tools and district attendance at committee meetings with town officials and daycare providers.

Google Sites and Classroom Classrooms were regularly used with families for collaboration and communication. We held virtual information sessions as we onboarded our new school-based health centers in two school buildings, supported the implementation of a new student information platform, and communicated our budget process with families and the community through workshops and information sessions.

To support students' success, we reviewed the importance of attendance and the expectations and actions taken if excessive absences occurred. This was done at Principals' meetings, Curriculum Night, and PTO meetings. We faced continued challenges in teasing out absences related to COVID and those that were not. Working together, our Social Worker, School Psychologist, and Administration communicated with families frequently and worked with those needing additional support. As an administrative team, we met to review our student absenteeism and built systems for consistency and clarity among all schools.

We continued the use of video conferences with families for parent-teacher meetings as well as PPTs. We maintained open lines of communication with families through PTO meetings and invited parents to participate in district initiatives such as School Climate, Strategic Planning, and administrator interviews.

Efforts to Reduce Racial, Ethnic and Economic Isolation

During the 2021- 2022 school year, we continued our efforts to ensure a safe school climate through district and building-based committees. Using a self-assessment tool, each building set goals to be worked on during the upcoming school year. As a district, a committee comprised of teachers, administrators, parents, and community members was formed, and district goals for climate were identified.

Our work to move to a more restorative approach in addressing students' social and emotional wellness continued. We continued our professional learning and collaborated with other experts to address and work to prevent bullying and mean-spirited behavior.

Staff set goals focusing on social-emotional learning for students. They were committed to helping students grow in self-awareness, self-management, relationship skills, and responsible decision making. Building and maintaining strong connections with students was necessary. Examples included keeping the Wingman Movement alive at NMHS by designing and implementing activities focused on making connections and discovering our commonalities through the Advisory program. At our other buildings, initiatives were in place to support our efforts to reduce racial, ethnic, and economic isolation.

Equitable Allocation of Resources among District Schools

During the 2021-2022 school year, our teachers continued to receive the training and resources needed to ensure the students' needs were addressed. We worked to create balanced classrooms through thoughtful placement, attending to the needs of students.

Our teachers continued to receive training and coaching in using small groups and targeted instruction in reading using the Teachers College Reading and Writing curricula materials. K-5 teachers also received continued coaching support in the math workshop and using data to create small group instruction.

Within the walls of New Milford High School, resources were allocated to each department based on need. For example, the visual arts and sciences require more money to purchase consumable items for their courses. Department heads meet with the building principal to discuss budgetary needs for other items, such as textbooks and equipment. Every effort was made to get departments what they needed to provide an effective and dynamic learning environment.
