Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Old Saybrook School District

Narratives

School District Improvement Plans and Parental Outreach Activities

This is the first year of a new five-year strategic plan for Old Saybrook Public Schools. The plan was developed with families, students, community members, and staff. These groups identified equity, high-quality instruction, and student and staff well-being as their top priorities for the district. Evidence of progress toward these goals is shared on our district website, and through regular newsletters and videos. Families provide feedback about the impact of these action steps through biannual surveys and family forums.

Many of the enhanced avenues for communication pioneered during the 2020-2021 school year continued throughout 2021-2022. Old Saybrook's Superintendent of Schools continued to host regular family meetings, via videoconference, to ensure access to all who chose to attend. Some families continued to attend planning and placement team meetings online while others chose to attend in person. Parent-teacher conferences were offered on both platforms, as well. When health conditions dictated, the district live-streamed performances and events, and offered in-person opportunities whenever possible.

Based on feedback from families, tours of the schools and in-person meetings with teachers were offered on several occasions. The district also sought parent involvement in decision-making, regularly soliciting feedback about progress toward strategic goals, input about the use of grant funds, and including parents on the Public Relations and Scheduling Committees and in the planning of wellness events.

Efforts to improve special education services for students with disabilities included ongoing staff training about the new IEP, dyslexia, and the addition of social-emotional learning programming across grade levels. In 2021-2022, OSPS enhanced the alternative high school program for students with significant emotional needs by adding a full-time counselor to support students and families. OSPS also partnered with neighboring districts to broaden the scope of services to students in our 18-22 transition program.

Attendance was reviewed weekly and followed by individual outreach from a team of teachers, social workers, and counselors. Attendance Board meetings and support from outside agencies were last-resort measures employed only after direct, one-on-one, personalized supports were provided.

Families continued to be champions of students' learning by staying connected through the district's learning management systems and digital gradebook. Students spent more time in the community, too, working on projects with the Historical Society, the Chamber of Commerce, the Garden Club, and many local businesses. They conducted environmental research and an archaeological dig. They planted pollinator gardens at the elementary school and high school and co-created a public mural at a local business. Each of these events connected students and community members, involving everyone in the education of Old Saybrook's students.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Equity is at the heart of Old Saybrook Public Schools' 2021-2026 Strategic Plan. We strive to ensure that all students will be challenged and respected, and represented throughout the district. To achieve this, the Equity Guiding Coalition was established in the fall of 2021. This group conducted a needs assessment and engaged every educator in anti-bias training.

Further, educators across the district participated in a series of workshops detailing specific strategies for supporting students learning English in every classroom. A quarterly newsletter, *Sabias*, shared the achievements of multilingual students with all families. *Quienes Somos*, published monthly, reminded teachers of strategies to connect with multilingual learners and their families.

Interdistrict programs included students in the 18-22 year-old transition program who were part of a regional effort to broaden opportunities and create connections. Efforts to establish a regional academic program to share access to specialized courses, like German and Mandarin, nearly took hold and the district hopes to continue to pursue this opportunity in the future if state law allows.

In Old Saybrook, students are proud of the diversity of our community. This year, one student envisioned a public mural celebrating the rich cultural heritage and many talents of the students in our schools. He worked with teachers and peers to raise funds to bring a professional mural artist to Old Saybrook. The team secured an accessible site within walking distance of the schools. Prominently located on Main Street, across from the Katharine Hepburn Theater and the Town Green, the mural will be highly visible to those who live in and visit Old Saybrook. Working with the mural artist, the team sought students interested in being featured in the mural and selected those whose applications best represented the diversity of the community. Students from all three schools walked to the site and helped paint the background of the mural, physically making their mark on the community. This student-inspired mural is a celebration of the future of Old Saybrook, one in which all people are respected and represented.

Equitable Allocation of Resources among District Schools

Old Saybrook Public Schools' budget is driven by the priorities of our strategic plan, which was written with input from the community, families, and educators. With only one school at each level, there is little concern that one school will be funded differently than another. In fact, the size of our district allows for a highly collaborative and transparent budget-building process. Starting with a zero-base, the budget is built by a team of teachers and administrators and includes only that which is necessary for the following year. This team approach and focus on the priorities of the strategic plan ensure equitable access to a well-rounded education for all Old Saybrook students.
