Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Plainville prides itself on working toward continuous improvement through coherent and aligned school and district improvement plans, all driven by a community-created vision for educational success. Our improvement plans guide all initiatives, strategies and decisions within our schools and district, with a focus on equitable learning opportunities and experiences for all students in order to provide the greatest chance for mastery of skills and content.

We implement a Universal Design for Learning approach to curriculum and lesson design, to allow all students access to meaningful and challenging learning opportunities. We also have robust, multi-tiered systems of support for both behavior and academics so we can provide the necessary support for students to access their learning. For students with disabilities who require more intensive support to access curriculum and instruction, our special education programming balances specialized instruction with inclusion to ensure our students continue to receive the necessary peer and general education classroom exposure they deserve.

Each school embraces a proactive approach to truancy prevention by routinely examining attendance data through their respective attendance teams to determine the impact of their engagement strategies. District level administrator meetings assist in analyzing this school level attendance data and serve to facilitate discussions regarding best practices. Some of the strategies utilized to improve student attendance are parent letters, phone calls, emails, home visits, partnerships with local agencies such as DCF, juvenile court and mental health providers, utilization of social workers and attendance rewards, celebrations and incentives. Creating stronger connections to school for both parents and students through outreach, programming and surveying are also strategies utilized to improve attendance through both engagement and an increased sense of belonging. To assist with these efforts, the district also added the position of Family-School Liaison to increase supports and outreach to parents and families.

Family engagement is a critical component in improving each student's learning experience and sense of belonging. We include parents in various committees and organizations, and also communicate regularly through newsletters, "e-blasts", Google Classrooms, progress reports and text messages in addition to traditional emails and phone calls. Parent conferences are offered at each school throughout the year, and various family events are offered to inform, entertain and/or involve parents in the educational process. We also provide translation services for our families who are non-English speakers. To ensure our families feel connected and supported in Plainville, our registration welcoming center provides families with resources to immediately embrace them as part of the Plainville Community Schools family.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Plainville has a long-standing partnership with the Connecticut Regional Education Consortium. More than 5% of our students are Open Choice students, and we continue to increase the number of Open Choice students in our schools, such as through increased spaces within our universal pre-K program. In order to further support and reduce any feelings of isolation among our Open Choice students and families, we have increased our efforts to provide more culturally relevant literature and experiences into our curriculum, instruction and school events and programs. In addition to accepting Open Choice applications, we also support Plainville students attending out of district magnet schools in Hartford and surrounding areas.

In order to enhance our efforts to reduce racial, ethnic and economic isolation, we created the district position of EL, Equity and Student Support Specialist before the 2020-2021 school year. This position has led to embedded professional learning opportunities for all staff regarding instructional practices to support English learners, cultural sensitivity, and identifying barriers to access and opportunity within our district. We continually strive to attract, hire and retain minority staff so we can better reflect the student population we serve through grant funding and targeted initiatives. We have also engaged staff, students and the community in our equity efforts through our district Equity Team, student-led social justice clubs, and our community-based Anti-Racism Task Force. All schools have implemented various activities to honor student differences, cultures and experiences such as cultural celebrations, equity read-alouds with CREC, inviting families to teach about their native language and customs, cultural ambassador programs, curriculum projects and piloting the course on Black and Latino Studies.

In addition, we provide access and opportunity through free, universal preschool, college and career fairs, financial assistance or waivers for advanced placement testing and dual enrollment costs (currently fully paid for), targeted assistance for the FAFSA, improved systems and processes to support and identify students with economic needs, one-to-one devices for all students and internet connectivity assistance when needed.

Plainville School District

Equitable Allocation of Resources among District Schools

The budgeting process in Plainville is based on the district's strategic plan goals and theories of action. Each building principal assesses the needs of the school as it relates to these areas of focus. The budget is then constructed during Administrative Council meetings and individual meetings with school, district and central office administrators. This ensures the allocation of resources is accomplished collaboratively across the district and maintains equity and organizational coherence.

Elementary classrooms across the district benefit from an excellent teacher to student ratio, and every effort is made to balance class sizes across the district. The technology plan ensures equity across buildings, and budgeting for classroom resources is done on a per-student basis. All schools receive Title I support, and therefore students in most need of services are receiving the benefits afforded by the grant.
