Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

During the 2021-2022 school year, Redding Elementary School used a variety of assessments to show students' measurable academic progress in reading, writing and math. Through our SEL program, Redding Elementary School teachers also provided prosocial, embedded learning experiences to support social-emotional learning within each classroom. Staff communicated students' academic and social progress through Interim Progress Reports, Parent Teacher Conferences and Report Cards twice a year. At Redding Elementary School, parents are encouraged to support student progress through PTA presentations, parent workshops, meetings with administration, and the RES website. Redding Elementary School also shares updated information on the Principal's Twitter account. Kindergarten Meet and Greet provides information to incoming kindergarten parents about how to support developmentally appropriate school readiness. Administration also fosters communication through a weekly newsletter called, The Rocky's Weekly Roundup! which keeps families informed about important dates, happenings, and events at RES and within the community. Redding Elementary boasts a strong PTA that has been recognized as a National PTA School of Excellence.

For John Read Middle School, students were assessed in both reading and math using NWEA MAP testing as a universal screener during the 2021-22 school year. In grades 5 and 6, students were also assessed for math comprehension utilizing the Acadience assessments. Eighth grade students participated in PSAT 8/9 testing in both the fall and the spring as well to provide information about reading across the content areas and mathematical comprehension.

In the area of SEL, John Read Middle School staff members met with students consistently as part of an advisory program. In addition, all students in grades 5 through 8 participated in a CARES class taught by the school counselors as a means to introduce, discuss, and problem solve on a variety of middle school issues such as bullying, healthy relationships with classmates, and peer pressure.

Staff communicated students' academic progress by updating grades and comments in PowerSchool, Parent Teacher Conferences and Report Cards four times during the year. At John Read Middle School, parents are encouraged to support student progress by getting involved with the PTA and attending PTA meetings, Coffee with the Principal, and through the JRMS website. John Read Middle School also has an active Twitter feed running on the school website which is a compilation of information from student council, the Library Media Specialist, classroom teachers, and administrators.

To assist with the transition to the middle school, there were several opportunities for the incoming fifth graders and their families to become familiar with John Read. Parents were invited to an evening with administrators, school counselors, and a members of the music department. Students visited the middle school during the school day to participate in a question and answer period, as well as to go on a tour of the building. The principal also fostered communication through a weekly email to parents to discuss current issues and celebrations, as well as to look at the week ahead.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Redding School District is committed to providing students with multiple opportunities to develop global, ethnic, and cultural awareness. Students have the opportunity to participate in the Garden Club, an after school program designed to promote community service as well as and includes student independence and responsibility. The PTA sponsors many cultural programs throughout the school year including an International Festival where families share the most valuable traditions of their native countries. The International Festival is a way to celebrate the cultural diversity at RES. RES participates annually in International Peace Day in September. The Heart of RES Award (on-going all year) goes to staff and students nominated for showing characters attributes of kindness, empathy, friendship.

Kindergarten through fifth grade students from Redding have the opportunity to participate in a magnet school in Danbury in an effort to provide more opportunities for diversity. In the spring, all students at John Read Middle School participated in a Multicultural week which included a special lunch menu each day featuring foods from a variety of cultures, announcements made by members of the Student Council sharing information about other cultures, and door decorating contests. The culmination to this week was a Multicultural Celebration where eighth grade students shared projects about a different culture, provided foods from that culture, and some included songs from their selected countries. Students from across the grade levels visited the celebration, as did parents and members of the community.

Equitable Allocation of Resources among District Schools

Allocation of resources is determined through an annual process of developing each school's operating budget in the district. Budgetary decisions are guided by the district's strategic commitment to academic excellence, character education, personalized learning and community involvement. All teachers provide input to their principals who work collaboratively with the Director of Finance that reflects each school's mission. The budget is proposed publicly at meetings conducted by the Board of Education, where members of the public are invited to provide input. Allocation of resources is discussed at monthly Board of Education meetings. Expenditures are balanced to sustain all academic and non-academic programs and determined in a manner that ensures full participation by members of the staff and full transparency to the community.
