Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Region 4 Schools (John Winthrop Middle School - Valley Regional High School) emphasize the academic and social development of each and every student. The focus on academic rigor in reading, mathematics, writing, and the sciences has demonstrated steady progress across the region. Curriculum revisions and professional development have focused on alignment with the Common Core State Standards. Professional development and curriculum writing are anchored in the use of technology, data analysis, and the utilization of both formative and summative assessments. School improvement plans monitor student achievement in reading, mathematics, writing, and inquiry skills. The district has implemented the use of a technology program to assist in data analysis and curriculum development.

Both schools use a professional learning community (PLC) model where time is allotted for meaningful professional conversations about student achievement. While there has been a steady growth trend, the Region 4 Schools are committed to continuous growth and improvement in meeting our goal of excellence for every student.

At JWMS and VRHS, a school-based student assistance team meets weekly to review student attendance issues and plan intervention strategies. Each week students are engaged in an advisory period and an activity period to foster deeper connections between students, staff, and the school. School staff members coordinate services for the students within our buildings to improve student attendance and active participation in the school community. If the problem persists, parents are notified by telephone and in writing when their child does not arrive at school, and other actions are taken as outlined by state statutes. At the middle school and high school, students who are identified as at-risk through the SRBI referral process for social, emotional, and/or academic concerns receive intervention support in the following ways: in-class support, small group instruction, one-on-one instruction, counseling, and in-house alternative programming. At VRHS, schedule modifications (late arrival or early dismissal) accommodate community-based internships and are also a successful intervention strategy.

In the area of special education, we have focused on increasing the co-teaching partnerships in our classrooms. Such learning environments have provided students with an exceptional student-teacher ratio and opportunities to differentiate and meet individual student needs. Our Professional Development model provides a series of workshops for teaching teams to increase the use of parallel and station teaching to better meet the needs of our diverse student population. These co-teaching teams have benefited from video modeling to expand their teaching repertoire and skill set. Each school has a skills center to provide services within our district for our students most in need of a highly individualized program.

The school websites contain valuable information for parents such as special activities and programs. The website provides parents with information on District Goals, Board of Education minutes, mission statement, Board Policies and a calendar of events. Our School Calendar-Parent Handbook is another vehicle to increase parent-school contact. Additionally, there is a mentor program to assist at-risk students that includes on-going communication with families.

Efforts to Reduce Racial, Ethnic and Economic Isolation

John Winthrop Middle School incorporates overarching themes of diversity, tolerance, and respect in weekly Advisory Connection Team (ACT) lessons for all students. Incoming students from three elementary schools participate in Unity Day events at JWMS to set a tone of acceptance for all students prior to their arrival. Students from JWMS have participated regularly in Middlesex Consortium's "Celebrating Differences for a Better Tomorrow" at Wesleyan University. As a result of this conference, our students have a greater understanding and appreciation of the diverse world around them.

To encourage tolerance and acceptance, all students participate in Start with Hello Day, Mix It Up Day, and Positive Youth Development Day activities, which feature opportunities for new interaction between students to celebrate differences and cultivate new relationships. In addition, programs and assemblies are scheduled throughout the year to support efforts to reduce racial, ethnic, and economic isolation.

The Valley Regional High School advisory program (CORE) curriculum for grades 9-12 provides many opportunities for students to engage in activities to raise awareness of discrimination, to prepare students to be active and positive citizens in a diverse, global society, and to promote acceptance of other cultures. Students actively participated in community service with Interact Club, National Honor Society, and Student Council. Students also participated in a school-wide Warriors in the Community service event that involved the entire student body and staff engaged in community service projects in all three of our towns. Each year our students also participate in a number of cultural exchanges to expand their awareness, experience, and interaction with students and families of other cultures. In addition to several educational trips to France and Spain, our students also host students from a variety of other countries.

Equitable Allocation of Resources among District Schools

Region 4 School District consists of John Winthrop Middle School and Valley Regional High School. Region 4 allocates resources to ensure equity and address needs each year, primarily during the budget process. The budget development process for Region 4 Schools ensures equitable allocation of resources between the two schools in the district. Building and central office administrators develop a proposed budget for the district collaboratively. Specifically, the process begins with a student enrollment projection to determine instructional needs to support student instruction, including but not limited to, staffing, textbooks, instructional supplies, and library media supplies. Analyses of expenditures from the previous school year are conducted. The analyses include a review of instructional versus non-instructional costs, the study of budgeted vs. actual expenditures, impact on facilities, etc. The budget is reviewed to ensure that it corresponds with requirements of statutes, educational goals, district policies, and collective bargaining agreements. The school budgets are combined to develop a budget that is presented to the citizens of the three towns for approval.
