Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Regional School District 07

Narratives

School District Improvement Plans and Parental Outreach Activities

Regional School District No. 7's administrators, teachers and support staff are dedicated to continuous improvement across all academic areas. Throughout the 2021-22 school year, we remained focused on our previously adopted Theory of Action statements, with a special focus on baseline data provided by the Smarter Balanced Assessment, NGSS, PSATs, and SATs.

1. Theory of Action for Improved Student Achievement . - Curriculum and Instruction: If we develop an aligned, well resourced, and viable CCSS based curriculum that supports the delivery of high impact instructional strategies, then student learning and achievement will increase.

- Assessment: If we establish rigorous formative and summative school based assessments that are aligned with the CCSS, then we can target high impact instructional strategies on the areas of greatest student need and the pace of achievement will increase.

2. Theory of Action Regarding Professional Development and Collaboration . - If we provide opportunities for our teachers to engage in collaborative analysis of student work and assessment results so teachers work together in order to refine their teaching, then instructional quality and efficiency will improve and student achievement will increase.

- If we provide on-going, job embedded opportunities for teachers to offer and receive feedback regarding their instructional strategies (through PLCs, peer coaching, instructional rounds, and observation feedback), then instructional quality and efficiency will improve and student learning will increase.

- If we provide faculty and staff with on-going social and emotional skills training, then we will foster a school district that embodies social, emotional and cognitive learning for every member of our community.

3. Theory of Action Regarding Communication . - If we communicate and engage effectively with all stakeholders, then we create shared ownership of the district's mission and vision to meet the academic, social and emotional needs of our students and learning will increase.

Northwestern High School's and Middle School's improvement goals and teacher SLOs are directly align with these Theory of Action statements. Teachers work in Professional Learning Communities to gain insights for sustained school improvement.

Improving student learning is a continuous process. This year's professional development plan concentrated on revisiting our Professional Learning Communities. Regional School District No. 7 has created a culture of continuous improvement through an ongoing process in which collaborative teams analyze data, question results, set targets, adjust teaching strategies, talk about instructional improvements, and celebrate academic growth across all disciplines.

Regional School District No. 7 does not have a truancy problem. Northwestern High School's Portrait of a Graduate (POG) is finished. The POG Committee included parents, clergy, elected officials, teachers, business owners, administrators, and students. Parents were engaged in creating the Northwestern High School vision of a graduate and discussed how best to augment the program of studies.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Regional School District No. 7 represents the four small communities of Barkhamsted, Colebrook, New Hartford, and Norfolk where diversity is significantly limited. Our school district stretches over 160 square miles in northwestern Connecticut. All four of our towns qualify as rural areas, with the largest town population being just over 6,000.

Our school district consistently makes significant efforts to reduce racial, ethnic, and economic isolation through our integrated curriculum, specially designed programs, and student activities. Some staff members have created a Social Justice Committee to better understand how to ensure all students, staff, and families feel a sense of belonging. Some students have started their own Social Justice Club and the two groups work collaboratively when possible.

Our Middle School Social Studies teacher runs a Civil Rights Club where students learn about racial tension and work to promote the rights of all. In the past, the club sponsors guest speakers such as; Mary Beth Tinker, and Dr. Terrance Roberts one of the Little Rock Nine. This year, our students took a trip to Washington D.C. to learn more about the Civil Rights movement in our country.

The district provides regional opportunities for students in the areas of agricultural education, vocational education, and special education programs. These programs expand our racial diversity and ethnicity. Northwestern participates in a successful football co-op. 30 of our students play on a team with students from The Gilbert School, located in Winsted, and Housatonic High School located in Falls Village. It can be noted that Winsted has a different socio economic make-up than New Hartford, Barkhamsted, Colebrook, and Norfolk.

Equitable Allocation of Resources among District Schools

One of Regional School District No. 7's goals is to provide adequate staffing to enable us to offer a broad program of studies for our students. Our budget passed overwhelmingly in all four towns.

The education budget is initially prepared and submitted by each academic department to their principals. After careful review, the principals present the budget to the Director of Finance and Operations and finally to the Superintendent of Schools.

The allocation of resources is carefully aligned with the district goals and those of the middle school and high school. The Director of Finance and Operations develops a plan to address long term facility items that need to be addressed. The facility encompasses both schools and athletic fields.

The middle school students are organized in 3 academic teams. The students remain in these teams throughout 7th and 8th grade. Resources are equally shared between teams and departments, as they are aligned to school goals.

Financial equity has been established between the departments and teams. Equity of resources is monitored by the building principals throughout the school year.
