Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Region 9 provides students with identified disabilities direct support through their individual education plans which allow them to develop and implement appropriate transition plans for their post-secondary education and career goals. During the 2021-22 school year, the district provided IEP services for 15% of students and 504 services to 22% of students. The majority of students are spending 76% or more of their time with non-disabled peers. Students receive support and direct instruction on reading, research, and analytical writing skills. Co-taught course offerings focus on Algebra 1, Geometry, and English 1 to ensure students are developing college-ready reading, writing, and math skills. Our in-district autism program continues to provide direct individual instruction in functional academics, communication, daily living skills, and social skills. Students develop their vocational skills both on-campus and in the community. Our Unified Wellness program involves exceptional and typical children working together in team activities such as basketball, bowling, soccer, drumming, and gardening. The Best Buddies program complements these programs. Students who have experienced trauma and missed instructional time are provided individualized support through Bridge services where academic and social/emotional support is available throughout the day. Students are able to move between attendance in their typical classes and accessing this support. Parents have access to their child's academic record through PowerSchool, as well as teachers' webpages and Google classrooms. ListServ blasts, the PTSA Focus Newsletter and the school website supply information about school events to the community. Student attendance is carefully monitored in accordance with the State Board of Education guidelines. When needed, meetings are conducted with the student, parent, counselor, school social worker, and an administrator to devise a plan of action to address attendance concerns. Joel Barlow High School reaches out to parents through organizations such as the PTSA, which meets monthly. Active parent-led booster clubs support our sports teams and theater program.

Our Mental Health First Aid trainer has provided opportunities for students, parents, and staff to receive this training. Our counseling department hosts grade-level coffees for parents. Topics include transitioning to high school and the college admissions process. Counselors meet individually with every 11th grader and their families for junior college planning conferences. All students, including incoming 9th graders, meet with their counselors as part of the scheduling process. Our Open House, Program of Studies night, and Barlow Palooza showcase are additional opportunities for parents to learn about the school and partner with us in supporting all students. Next year, parents will be invited to participate in a series of 4 workshops focusing on transition planning, linkages to support agencies, social emotional well-being, and planning for adult life.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Regional School District #9, Joel Barlow High School, works to reduce ethnic, racial, ethnic isolation through a variety of programs. Ten students from the towns of Easton and Redding attend the Fairchild Wheeler Interdistrict Magnet School in Bridgeport. Six students, currently enrolled at Barlow, attend the Regional Center for the Arts program as part of their academic day. Three students attend the Center for Global Studies in Norwalk, one attends the Bridgeport Military Academy, four attend the Trumbull Agriscience School, five students at Abbott Tech in Danbury, and five students attend The Academy of Information Technology and Engineering in Stamford. Cooperative Educational Services facilitates an open choice initiative called Project Choice. Bridgeport students apply and are chosen from a lottery to attend Easton schools and Barlow through the Project Choice program. This year five Barlow students live in Bridgeport. Our faculty, working through the curriculum, extracurricular activities, provides many opportunities for our students to interact with students throughout the region, the state, and beyond. The pandemic shifted many in-person activities to the virtual arena. A significant number of students participate in debate tournaments, interacting with students from Boston, Danbury, Fairfield, New Haven, Stamford and other diverse communities. Students enrolled in the Drawing course combine the skills of foundational portraiture with compassion, and the desire to create meaningful change, when submitting portraits to the Memory Project each spring. This summer, a consultant from the Great Schools Partnership will work with a small group of teachers and administrators to support curriculum review and revision to expand representation and inclusion within student learning experiences.

Equitable Allocation of Resources among District Schools

Allocation of resources is determined through an annual process of developing each school's operating budget in the district. Budgetary decisions are guided by the district's strategic commitment to academic excellence, character education, personalized learning and community involvement. All teachers provide input to their principals who work collaboratively with the Director of Finance that reflects each school's mission. The budget is proposed publicly at meetings conducted by the Board of Education, where members of the public are invited to provide input. Allocation of resources is discussed at monthly Board of Education meetings. Expenditures are balanced to sustain all academic and non-academic programs and determined in a manner that ensures full participation by members of the staff and full transparency to the community.
