Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Regional School District 17 continues the use of specific building-based Continuous Improvement Plans with measurable goals in the areas of language arts, science, and mathematics. We maintain common planning time for all teaching staff in Kindergarten through grade twelve to ensure active dialogue about a variety of data collected in the area of instruction. Using a variety of funding sources, the Regional School District 17 has established a professional development plan that interfaces directly with the Continuous Improvement Plans at each school. This professional development plan offers staff training outside the parameters of the regular school year schedule. The district continues to support directed professional development opportunities for staff that correlate directly with areas where instructional diversity is needed. Over the past ten years, all curricula have been aligned with applicable national and state frameworks for instruction. The district maintains a comprehensive coaching and intervention structure to assist in the areas of language arts and mathematics. In the area of special education, we continue to focus on increasing inclusion of disabled students with non-disabled students and have implemented formal pre-referral models at all schools. Ongoing collaboration between regular education and special education staff continues to support new initiatives in the areas of teaching and learning.

The RSD17 Summer Learning Website has been updated to provide extensive opportunities for parents to support their children at home in the summer. For the second year in a row, we are offering summer programming targeting students in need of intervention, enrichment, and SEL services. In addition, we have partnered with Effective School Solution clinicians at both the middle and high schools.

The RSD17 Vision of the Graduate was created after several months of engaging with the community and a representative Steering Committee including teachers, students, Board members, school administration, parents, and town leaders. The Vision clarifies and unifies our goals for our students. It describes skills and dispositions across six elements which interact with each other and with curriculum content standards, facilitated by excellence in teaching, to support the development of a learner prepared to contribute and succeed. These traits have always been essential, and we can also imagine a future where preparing students to provide leadership, creativity, and ingenuity in an increasingly connected global world is as critical as it has ever been.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Regional School District 17 lacks the diversity that many school districts are fortunate to experience. To counteract this, we intentionally plan, design and initiate various cultural awareness methods to broaden student perspectives about our diverse world. We refined our English-Language Arts, Social Studies, World Language, and Social Emotional Curricula to promote multiculturalism because we believe it is important that all children feel included, represented and safe in our schools. Our curricular approach provides experiences that teach and promote acceptance and kindness and an understanding that everyone has a story. Diverse texts were acquired for K-8 classrooms that offer students "windows and mirrors" into diverse cultural backgrounds. The High School English department incorporated diverse literature and collaborated with the History dept. around shared texts/topics which address justice and equity. High School and Middle School Advisory Committees implemented research based SEL curricula Second Steps (Middle School) and School Connect (High School) respectively, this fall. Second Steps will now be implemented in K-8 which will foster continuity and depth on topics related to social justice, equity, bullying, harassment, and acceptance. Our SEL team will continue to emphasize lessons related to acceptance, self-advocacy and empathy within the Second Steps Curriculum. Our High School is committed to prepare for the new Black and Latino Studies Course as we plan to onboard in the fall of 2022. In addition to curriculum measures, we have partnered with SERC to provide Professional Development for our administrative team and teachers related to diversity, equity and inclusion. SERC will assist our district in the development and implementation of DEI strategic planning. A multitude of classroom and assembly-based programs continue to be incorporated on an annual basis. RSD 17 Schools has reinstated participation in formal student exchange programs. Additionally, cultural awareness assembly programs are hosted by each school annually. Opportunities for secondary students to complete coursework at local colleges and universities continue to support the efforts of the district to include HK students in more culturally diverse learning environments.

Equitable Allocation of Resources among District Schools

Regional School District 17 enjoys the multidimensional support of the communities of Haddam and Killingworth. It continues to be the practice of the administration of the Region 17 schools and the Board of Education to ensure equitable allocation of all of the district's financial resources in a manner that meets the needs of all students. The budget development process begins in early November of each year with building administrators and department supervisors submitting budget requests to the central administration of the school district. These requests are reviewed in conjunction with the district's strategic goals, state and national requirements, and clearly stated objectives for the next school year. Various data points are considered to ensure that requested funding is in alignment with district initiatives as planned. Considerable efforts continue to allow the district to use financial strategies such as cooperative purchasing, re-appropriation of existing resources and a district-wide commitment to economic efficiency has resulted in effective outcomes.
