Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Seymour School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The Seymour School District works diligently to improve its curriculum (Mathematics, Science, Social Studies, and English Language Arts) across grades K-12 in order to keep them aligned with both the CT Core Standards as well as NGSS. Seymour has been and will remain committed to Reader's and Writer's Workshop as the model of instructional delivery for Language Arts in grades K-8. We have also changed our Math curriculum resources in grades K-5 to address the need for improvement across those grade levels and to better align with problem based learning, differentiation, and collaboration. Staff and students across our district address weaknesses in the area of Reading and Mathematics through our School Improvement Plans designed specifically for each building by the Building Data Teams. These Data Teams examine data and set school improvement goals. Our teachers use data to drive instruction and to improve student achievement. Teachers meet bi-monthly in grades K-5 as grade level teams, and 2 times per week in grades 6-12 by content area to collaboratively discuss, plan, and analyze student work. Teachers use Scientifically Researched Based Interventions to provide support to students identified through the use of universal screenings and by the Progress Monitoring Team (PMT). Our Special Education students are also provided with supports needed in order to properly access their grade level curriculum. These supports are determined collaboratively through the PPT process. All students in grades K through 12 are assigned a Chromebook which allows learning to continue without borders. The Seymour School District is always seeking ways to improve internal and external communication in order to unite parents, educators, students and the community. Seymour has a District webpage as well as a Facebook page. School employees are also able to communicate with parents through a variety of educational applications (Google Classroom, Remind) as well as through our email system. Each teacher has access to a phone with their own unique extension in the classroom to communicate more readily with parents. Parents are able to access information on their child's academic progress via PowerSchool. School-wide positive behavior support has been implemented at each level. In the elementary schools, Responsive Classroom has been implemented. At the middle and high school level, Positive Behavioral Interventions and Supports (PBIS) have been implemented to provide students with multiple levels of support to encourage social, behavioral and academic support. We believe family involvement is a critical and crucial factor in the academic and personal growth of our children. Our efforts to promote a home to school partnership include parent conferences, a commitment to increasing the number of parent volunteers, and we are proud to have both senior citizens and military veterans as reading mentors who visit our schools weekly to work with our primary grade students. Administration sends weekly updates home to all parents via e-blasts. Our teachers and administration invite parents to attend evening sessions to share strategies for assisting their children with reading, math, and other topics. Many of the evenings are interactive including both parents and students engaging in activities and learning facilitated by teachers and paraprofessionals.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Seymour is a district that values, respects and welcomes diversity. This learning organization works attentively in its efforts to reduce racial, ethnic and economic isolation. The Seymour School District has an excellent sense of priorities and sets high expectations for all students. Seymour has an ongoing effort to ensure that curriculum choices and materials reflect diversity and inclusion. Our mission is to fully know our students as learners, to educate and inspire them through a range of experiences that reflect high expectations for learning and prepare them to meet the challenges of an ever changing world. The district promotes the importance of individuality and originality in the learning process in a safe school climate. Seymour Public Schools continue to educate our students in ethnic, cultural, and religious diversity through our curriculum; school-based clubs and inter-district sister school grants as well as countless enrichment activities throughout the school year. Our four schools in the district also have school based activities, clubs and events to benefit people in need. Seymour Public Schools remain committed to providing for our students social and emotional wellbeing as well as inclusivity for all. We strive to provide our students a platform where they can express their differences without judgement. Courses that are offered and being developed encourage students to explore diverse opportunities of culture, ethnicity, and career paths, with a Seymour focus on rigorous manufacturing and health CTE as well as AP/ECE course paths. As a team, we have been and will continue to be focused on unity within all of our schools and within the entire community. Seymour Public Schools values all of our students and is very proud of our diversity. There is no place for hate, racism, and prejudice in our schools and these have never been and will never be tolerated. Our students are encouraged to turn to their teachers and counselors to speak about anything that is on their mind.

Equitable Allocation of Resources among District Schools

Seymour Schools all benefit from Title I Grant funds that provide ELA and Math support to struggling learners. In addition to grant funds, the LEA budgeting process begins yearly in November. The Central Office administration begins by collaborating with building level administration to assess their needs as related to their school improvement plans as well as the District's Strategic Plan. Input from the parent community is obtained whereby budget direction and various initiatives are discussed prior to a formal budget preparation. Throughout December and January, Central Office develops a Superintendent's recommended budget that is then presented to the Board of Education at a budget workshop. The conversations take place in the context of long term goals and initiatives with an emphasis on the linkage to the district goals and the impact on student learning. Information is presented at formal meetings during the annual town budget process. Once the formal budget is completed and filed at the town hall, the entire budget is posted on the district website for the public to view. The budget process concludes with the passage of the education budget referendum in May of each year.
