Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The SPS Strategic Plan (2019-2024) goals focus on: student growth and success, compassionate/connected school culture, premier workforce, and sustainable/strategic investments. Aligned with our Simsbury Vision of a Graduate, we strive to engage all students and staff in rigorous, dynamic, & relevant learning experiences to ensure growth & achievement of empathetic, ethical, & resilient community members in an inclusive, responsive, & safe environment. We hire, invest in, & retain passionate & exceptional staff who will contribute to a challenging, innovative, & collaborative culture. Further, we identify & advocate for the needs of our school communities to support this work while demonstrating fiscal responsibility. Our continuous improvement cycle requires principals and school staff to analyze student learning data and prioritize school specific goals and actions aligned with our strategic plan. Throughout the year, metrics are examined to measure the impact of student learning/growth. This work is primarily done in teacher collaboration teams (PLCs) to assess student achievement, monitor progress, and refine instructional practices accordingly. If students are not meeting academic or social-emotional behavioral expectations, a tiered system of support, beginning in the general education classroom, is implemented. Supports can include, but are not limited to various research-based teaching strategies to address the difficulty, or increased levels of intervention based upon student response to previous implemented strategies. Special education services are developed based upon these continuous improvement efforts and designed to meet the individualized needs of those most impacted based upon our data analysis. Simsbury reviews data relative to identified students' success in meeting goals and objectives outlined in their individualized education plans (IEP). Adjustments are made through the Parent and Placement Team (PPT) process, should any be warranted. Professional learning is designed for both general and special educators to improve programming & outcomes for all students. Specific sessions have included topics of SEL, restorative practices with students, IEP goal writing, mindfulness, internet awareness, implicit bias, self-care, improving teacher skill in technology, and developing home-school collaboration skills and structures. We value our strong partnership with families as a cornerstone for the success of our learners. Schools engage families in the improvement process through representation on various committees, parent-teacher organizations, and soliciting input on annual surveys. Our special education families group remains strong, offering quarterly collaborative programs. Family forums were also held by the Director of Equity and Access to garner feedback on ways to increase engagement of all families in Simsbury. A book club will begin, informed by recent parent survey results. Our regular communications from schools include weekly electronic updates, along with a Community Bulletin Board on our district website. Finally, we partner with families to ensure effective student attendance in our schools. Using data, social workers and support staff identify student attendance concerns and engage in strategy development with families and community partners to increase school attendance.

Efforts to Reduce Racial, Ethnic and Economic Isolation

In Simsbury, an equitable system ensures that all members of our community can reach their full potential. Learning opportunities are provided for students toward reducing racial, ethnic, and economic isolation. In alignment with Simsbury's Vision of the Graduate, our curriculum, instruction and corresponding experiences are structured to develop global citizens who contribute to society with integrity, compassion, & resilience while considering diverse perspectives and cultures. A position directed to oversee these efforts, a Director of Equity & Access, was created and is in its inaugural year. We are a founding member of Open Choice, with over 4% of our Simsbury student body residing in Hartford, attending our seven schools. Our Open Choice Liaison works with students, families, and staff to make programmatic improvements. Beyond Open Choice, a wide-range of efforts highlight our commitment to reduce racial, ethnic and economic isolation. They include, but are not limited to: a newly, invigorated minority recruitment committee; the creation of an affinity group for staff of color; devoted time to teach social-emotional learning; enhanced literature across the district related to various cultures, races and traditions; well-developed character education programs; family-sponsored cultural enrichment programs; mentorship of middle school students by Boule Fraternity; after-school care that extends the school day for students; K-12 curriculum reviews to ensure our students experience standards-based opportunities to develop as global citizens; World Language opportunities in grades 4-12; SHS students participate in choice workshops during Equity Week; and the Town of Simsbury supports the ABC (A Better Chance) program founded in 1963. Further, students work with disabled peers in Unified Arts, Athletics and Wellness within Simsbury and among other school districts. The district Equity Council works to recognize & address the biases & inequities that exist within our school system, examines data, and recommends policies & practices to the Board of Education based upon their analysis. In doing so, the anticipated outcomes are the provision of opportunities that guarantee access for all students to meet and exceed academic, social, & civic expectations.

Equitable Allocation of Resources among District Schools

Equitable distribution of financial and other critical resources, including high-quality educators, college-preparatory curriculum, and support services, create the foundation necessary for all students to succeed. Preparing students to meet 21st century expectations relies on the commitment to allocate sufficient monies, skilled staff, and necessary resources based on student and school need. Metrics considered when determining equitable allocation of resources include: projected enrollment numbers, BOE class size guidelines, special education enrollment, student performance measures, and specific school priorities based upon that and other data. Administrators make need-based requests to the superintendent which are vetted and presented to the BOE. Throughout the budget process, several BOE meetings are held to address requested funding areas. Meetings are taped by Simsbury Community TV and broadcasted. Community input is welcomed during this process. Once approved by BOE, the budget is submitted to Simsbury's Boards of Selectmen and Finance, presented at public meetings, and finalized with a spring vote.
