Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Stamford Public Schools recognizes the challenges, successes and accomplishments that happen every day in our schools. We are a learning organization capable of continuous change and growth in which all students, staff, families - and the community - work collaboratively to ensure that every student is challenged, inspired and prepared to reach their maximum potential. The mission of the Stamford Public Schools is to provide an education that cultivates productive habits of mind, body and heart in every student. All School Strategic Improvement Plans are aligned to the district goals and focus on areas of mind, body, and heart. The focus for the 21-22 school year was on growth in the academic areas of reading and math, improving the chronic absenteeism rate, and developing social emotional learning programs. Stamford Public Schools has a district-wide Attendance Team and School Attendance Teams that meet monthly to review and analyze district and school attendance data. The District has an Office of Family and Community Engagement, which supports implementation and planning for events in the schools and in the community for students and families. This department also provides support through full-time Parent Facilitators who work in schools as liaisons between home and school engaging in two-way communication with families. This year the department conducted Parent Teacher Home Visits (PTHV) for outreach for disengaged and disconnected students and families. It also continued a program (Here 2 Help) in collaboration with community partners to support and assist families of students who displayed disengagement from school. The district and individual schools hosted several Parent Pop-Up Webinars to educate and engage parents on a variety of topics to help support their child's learning at home. The Family and Community Engagement (FCE) Advisory which was established during the 20-21 school year continued to bring voice from different stakeholders, generate ideas on how to best meet the needs of our students and families and foster action in support for our most marginalized families. Each school has a Parent Teacher Organization and School Governance Council that works closely with the school staff for programming. Stamford Public Schools continues to expand and improve special education services and programs for students with disabilities. All students who are identified as special education students are considered general education students first in all planning. Special education services and programs are developed and identified based on the individual needs of each student. The District has expanded in-district specialized programs for students with Autism, Intellectual Disabilities, Developmental Delays, and Emotional Disturbance. The increased number and quality of these programs has provided families with additional programming options to meet students' individual needs. Transition services for students ages 18-22 have also been an area of focus and expansion. We have developed our post-graduate transition services for supporting students with independent living, employment and post-secondary education opportunities through the age of 22. The District also continues to improve special education teachers' skills in delivering quality specialized reading support through focused professional development and coaching.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Stamford Public Schools is deeply committed to diversity, equity, and inclusion in all our schools.

1. Demographic Balance - The policy of the Stamford Public Schools requires that all schools are within +/-10% of the district's demographic integration standard. 2. Magnet Schools - Stamford Public Schools includes six magnet schools - three elementary magnets, one K-8 interdistrict magnet school, one middle school magnet and one high school interdistrict magnet. In addition to providing parents some element of choice in the programs offered to their students, the purpose of the magnet schools is to manage enrollment and demographic balance. Accordingly, these magnet schools select students through a lottery process to control enrollment and achieve the district's integration standard. 3. Interdistrict Magnet Schools - The K-8 Interdistrict Magnet (Rogers IB) was initiated 11 years ago as an International Baccalaureate (IB) school. In September 2016 the Rogers IB School was expanded to a second school campus, Strawberry Hill. The Strawberry Hill campus is a K-6 school with approximately 600 students. We continue to add one grade per year with a planned student population of 900 by the 23-24 school year. At the high school level, the Academy of Information Technology & Engineering (AITE) enrolls students in grades 9-12 from Stamford and neighboring towns. 4. Curricula - We engaged in a year long preK-12 curriculum audit. We trained over 80 high school teachers in curriculum development and design and have curriculum committees in each content area working on revising curriculum for relevancy and cultural responsiveness. 5. Cultural Events - All schools plan and host numerous events in the course of the school year to promote student, parent, and teacher knowledge and sensitivity to the wide variety of cultural backgrounds of Stamford students. 6. Stamford Public Schools continues to engage with the CSDE's effort to increase the diversity of the teaching staff. Our partnership with Educators Rising has allowed us to develop a high school pathway to teaching to encourage our students to return to Stamford upon completion of their degree.

Stamford School District

Equitable Allocation of Resources among District Schools

Resources to all Stamford Public Schools are allocated based on student enrollment. Class sizes are planned to be 25 or lower in the elementary grades. At the middle and high school levels, class sizes are planned to be 30 or lower. Art, music and physical education specialists are assigned based upon school enrollment. The district uses a weighted allocation model that incorporates differential student needs to complement the existing allocation model based on enrollment. Separate budgets allocate funds for English Learner (EL) and Special Education students; these students are also counted in the total school enrollments for purposes of staff and material allocations. In addition to the districtwide budget allotments, each school is given a per capita allocation for materials and instructional supplies. The district continued to invest in technology devices (i.e. Chromebooks and laptops) as well as Wi-Fi hotspots for students. During the 21-22 school year, Stamford Public Schools continued a 1-to-1 technology program for both students and staff.
