Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Trumbull School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The 2021-2022 school year saw a gradual return to normalcy as we progressed through the school year. The Trumbull Public Schools focused its improvement in the following areas: Ensuring the Physical, Social, and Emotional Well-Being of All Students and Staff; Optimizing Teaching and Learning; Budgeting to Support Continuous Improvement; and Operational Excellence and Continuous Improvement. Our first goal around the wellness of all staff and students saw many successes. We implemented computerized visitor kiosks at each school and trained staff and parents how to use them. We implemented our updated threat/risk assessment process to make sure that significant student concerns were handled consistently and appropriately. We provided training for all staff on Shawn Achor's work on Positive Psychology. We also examined our chronic absenteeism data and discipline data by sub-categories and finally completed a town-wide mock scenario to increase our overall readiness for large-scale school emergencies. As it relates to teaching and learning, we implemented a Universal Assessment Tool for grades K-10 (i-Ready); adopted our PK-12 Vision of the Graduate; and began a district-wide Professional Learning Community with the goal of increasing instructional capacity across the entire district. Most notable under our budget goal we implemented our time-in-attendance model and implemented a new position control process. Finally, our goal on Operational Excellence focused on our communication with families and staff, developing our 5-year capital plan, and reviewing all of our practices and procedures related to Human Resources. A full account of each goal for the 2021-2022 school year can be found on the Trumbull Public Schools website.

There was significant effort placed in the area of truancy and chronic absenteeism. The district added a social worker to focus on truancy issues that increased over the pandemic. Each school had a clear process they followed which allowed for the many nuances that each truancy case brings to the team. Overall our truancy and chronic absenteeism numbers are higher than we want but excellent in relation to many districts.

Our parent outreach for the school year was excellent. Principals at each building continued to send weekly communications to all families about upcoming events and ways that parents can be involved in the teaching and learning process. The Superintendent of Schools continued to send a monthly update to all parents and staff as well. Our monthly "Town Hall Meetings" for staff were held quarterly rather than monthly given the waning of COVID cases. The Superintendent continued to meet with the Parent-Teacher Association Council (PTAC) to discuss opportunities for families and ways for the schools and parents to collaborate. The PTAC continued to benefit students in a multitude of ways through the time, treasure, and talent they offered at each school.

All of our additional activities with parents went back to their traditional form. All of our Back to School Nights, parent conferences, and PPTs transitioned back to in-person. However, we learned from the pandemic that for some families the virtual meetings made it more convenient to meet and therefore we allowed for conferences and PPTs to remain online if preferred.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Trumbull Public Schools recognizes every child's right to a free, high-quality public education and values the richness of diversity. With this commitment in mind, we engaged in many activities designed to reduce, racial, ethnic, and economic isolation. The most significant of our work was the continuation of key committees: an Equity Steering Committee, which consists of primarily central office leadership, a District Equity Leadership Team (DELT) with representatives from across the district, and the creation of our first School-based Equity Leadership Team (SELT) at the high school.

Our DELT completed three major tasks. First, they developed a District Equity Position Statement that was approved by the Board of Education. Second, they developed a rubric that could be used as an equity lens when developing new curriculum. Third, the DELT developed a training session on equity and diversity that was delivered system-wide to all certified staff. Additionally, we continued with our participation in the Open Choice program with Bridgeport Public Schools and our Human Resource department made additional connections that should increase the diversity of our staff.

At the high school level, the new state mandated course African American/Black and Puerto Rican/Latino Studies was offered. Additionally, our Board of Education approved a new Global Civilizations text for our ninth graders as well as eight new novels aiming at further diversifying the options within various high school English classes. In addition, the high school offered its second year of an afterschool club called Shades aimed at providing a safe place to discuss and share resources.

At the middle school level, students continued to explore issues of diversity and inclusion within texts and novels interwoven into the curriculum. In particular, the English Language Arts teams looked for ways to revise our curriculum guides so as to provide more diverse perspectives within the reading. Additionally, at the students' request, two new middle school level Shades clubs were started.

At the elementary level, our teachers and principals interwove programming, read alouds, and lessons with a variety of role models, cultures, and perspectives.

Equitable Allocation of Resources among District Schools

The Trumbull Public Schools is committed to allocating resources in an equitable manner. The Board of Education goals drive the district and school improvement plans. These plans drive the budget development process and ensure that students' needs are the driving force in the process. The district leadership team review data from the schools and allocate resources based on need to avoid potential inequities. As the district developed its uses for ESSER grants, we employed these same techniques so that each school would receive what it needed based on student performance data. Additionally, TPS has two Title I elementary schools which receive funding in order to support our neediest of students from an economic perspective. Through an analysis of student outcomes, we were able to identify students and schools with additional needs and to identify opportunities to flexibly use our current resources. We also worked closely with our PTA's to ensure that they have understood the policies around raising and expending funds. Finally, we also provided student waivers to participate in pay-to-participate activities.
