Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

West Haven School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The West Haven Board of Education has embraced the State Department of Education's school improvement initiatives. The research-based process to improve student achievement for all youngsters is being implemented in all schools, grades PK-12. Professional development is grounded in this research base and provides teachers with teaching strategies, data driven decision making tools, curriculum design and student assessments. This has been our program improvement plan over the past 15 years, which has been implemented with consistency and fidelity.

The West Haven Board of Education concentrates its efforts on aligning our PK-12 curriculum in the areas of language arts, mathematics, science and social studies in the Connecticut State Standards and national standards, with the goal being to increase equitable access to the content for all youngsters. The efforts to improve student learning for all youngsters, regardless of their educational need or handicapping condition, is reflected in our curriculum which is grounded in educational and scientific research; reflects state and national Common Core Standards; differentiates instruction utilizing a variety of research based strategies; and, is consistently followed across all schools and across all grade levels. This year due to the restrictions with COVID the curriculum was revisited and designed to meet the needs of students learning in person as well as remote learners. Teachers were trained in using technology to better support all learners.

West Haven High School renovations continues and will be completed by the fall of 2021. The new facility will reflect a curriculum and schedule which aligns with the programs and activities developed for the staff and students. This climate will reinforce the community foundation from which it has been built and the high expectations for our youngsters in the humanities and sciences.

In the area of special education, we strive to keep our youngsters within our district and deliver the most appropriate instructional resources within the least restrictive environment. Our curriculum is designed to address the differing needs of all youngsters and is appropriate for our special education population. Toward this end, all classroom teachers continue to receive the training necessary to instruct our youngsters so as to best prepare them to access the curricula.

Student truancy is addressed utilizing a variety of methods, both preventive and reactive. Parents are informed each year of the district policy regarding truancy and its effects on progressing through to the next grade, as well as credit implications at the secondary levels. Handbooks are distributed on line, as well as hardcopy, and are reviewed with students during the first week of school. Parents are contacted via school messenger each day of absence, with a follow up phone call to parents after a minimum of three absences. At the elementary level school social workers monitor attendance and personally meet with parents early in the school year to clarify the importance of school attendance. House visits have been made when necessary to support parents and students in returning back to school. Distance Learners were encouraged to return to school by both the staff and administrators. Power School provides a venue for parents to monitor student performance and attendance on a daily bases.

Efforts to Reduce Racial, Ethnic and Economic Isolation

During the 2021-2022 year, many opportunities continue to be offered at schools designed to reduce racial, ethnic, and economic isolation. Even with some changes due to COVID we continued to drive our instruction to support all students while continued high expectations for all. Our efforts to expose students and their families to multiple educational, social, and emotional supports have broadened awareness, thus an increasing accessibility of equal educational opportunities. Standardized data collected since the beginning of the year shows growth in all areas.

The district continues to build on community relationships with community, academic social and recreational activities at the schools. COVID protocols were followed in the beginning of the school year and as we moved on to the second half of the year, we were able to move towards pre-COVID activities. Efforts to support and engage families across economic and cultural divides have had a different mode of engagement, which included Zoom meetings and school-based activities or projects. Social Workers and Guidance Counselors consistently reached out to families to address concerns and questions. Partnerships with the University of New Haven, Yale University, the Community House (after school and readiness programming), Gateway Community College continued on a smaller scale. PTA and PTO meetings are now in person. The second half of the school year schools have begun to offer family nights, to encourage parents back in school. Conferences with families was offered both in person and via Zoom. All programming is designed to involve children and families in their community schools to reduce not only racial and ethnic isolation, but equally as important, economic isolation.

West Haven is committed to hiring staff in both certified and non-certified positions that reflect the diversity of our student population.

Parental notices and forms are translated in languages, as well as accessible on the district website.

Equitable Allocation of Resources among District Schools

The West Haven Board of Education continues to allocate funds to its schools on a per pupil basis. School administrators and central office staff work together to develop a budget that is designed to meet the needs of a particular school community and its student population. The budget process takes into account the needs of the buildings as they relate to programs and initiatives offered throughout the district, as well as the educational, social and emotional needs of the student population. Each school budget is designed to ensure comparable resources are distributed across the buildings. It is the responsibility of the district-wide content area coordinators to implement major curriculum changes and related professional development in such a manner to ensure equal access of content for all youngsters in the District. West Haven is committed to following all state and federal guidelines when allocating grant funds, thus ensuring that students most in need will benefit.

The West Haven Board of Education is committed to ensuring equal access to the curriculum and equitable allocation of all resources, such as technology.
