Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Westport Public Schools has actively engaged the parent community in the development of a strategic plan for the district. Input from parents and community members was solicited and utilized to develop an updated strategic plan. The Board of Education was provided with regular updates regarding ongoing work toward development of the plan and there were ongoing opportunities for community members to provide comments to the Board and administration.

In 2021-2022, the District continued to operationalize our Guiding Principles, the social, civic and ethical outcomes that we deem essential for our community, and provide a foundation for all the work in the district. Districtwide efforts to implement the RULER Program in collaboration with the Yale Center for Social Emotional Intelligence focused on professional development of all staff members, along with a cohort of parent representatives. Next steps have been planned to implement the RULER program with all students. This summer we will continue our efforts to develop a comprehensive k-12 district curriculum and implementation plan for social emotional learning.

All five elementary schools continued partnerships with the Teachers College Reading and Writing Project to improve literacy instruction and achievement. K-12 Literacy Coaches provide ongoing support to teachers across all disciplines to assure that literacy skills are taught and applied in all curricular areas. The District's transition to the Next Generation Science Standards continued in 2021-22 with the implementation of revised curriculum in grades K, 3, 6 and 9, including a new two-year science course at the high school designed to give students broad exposure to science concepts in Biology, Chemistry, Earth Science and Physics within an integrated framework aligned to NGSS.

The Westport Public Schools continue to make improvements to programs and services for students with disabilities. Examples include improving transition services for students at the high school level, providing professional development in a multi-sensory approach to teaching reading, and providing ongoing professional development for staff in meeting the academic and social and emotional needs of students. Consultants to the Westport Public Schools include Board Certified Behavior Analysts, Psychiatrists, and Neuropsychologists, each of whom assists Planning and Placement Teams in the educational planning for our most involved students. In addition to its RTI programs in literacy and math, Westport utilizes a RTI model for behavior which addresses the behavioral needs of students at our elementary schools and provides a structure for strategic intervention in cases of truancy and other behavioral concerns. Finally, WPS has partnered with its parent community by maintaining monthly meetings between the Assistant Superintendent of Pupil Services and the special education PTA, and quarterly meetings with the gifted education PTA. These meetings serve to inform parents of district initiatives, provide parents tools for working with their children at home, and provide a forum for parent questions. In addition, parent presentations on such topics as Dialectical Behavior Therapy and substance abuse were hosted by the district.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Westport Public schools continue to value and seek opportunities for teachers and students to participate with others from diverse backgrounds in order to reduce racial, ethnic and economic isolation. The District collaborates with TEAM Westport, an organization dedicated to achieving a more multicultural community, to identify and implement programming and resources for educators and students to understand and celebrate diversity. The elementary schools continue to engage in social competency programs that support understanding and acceptance of differences among people. The high school's diversity program, which encourages respect for all people, includes the Gay-Straight Alliance and other cultural clubs. The high school has also welcomed students from Westport's "A Better Chance" program which brings academically able but less affluent students from elsewhere in the country to live in Westport and attend Staples. Multicultural units of study and programs celebrate diversity in all its elements. The English/Language Arts program K-12 features a balance of reading experiences, including diverse literature representing voices from various cultures, family backgrounds, and gender/sexual identities. The World Language Department offers six different languages and engages students in cultural studies as well as seeing the world from multiple perspectives on a regular basis. In addition, the District's longstanding commitment toward economic and racial diversity is embodied in the 65 students from Bridgeport who attended the Westport Public Schools in 2019-2020 through the Open Choice program, continuing to make Westport's one of the largest Open Choice programs in this area. Westport works with local and regional universities in an effort to attract and recruit minority educators.

We also continue to have a portion of our school population coming to Westport from foreign countries, adding a multi-cultural presence to the school system. In 2021-22 there were 343 students in our schools coming from homes in which 41 different "dominant" languages were spoken. While many students were fluent in English, 72 participated in our ESOL program.

Equitable Allocation of Resources among District Schools

The equitable distribution of resources among schools in this district is assured by the transparent, collaborative nature of the budget process. Basic resources are allocated to each school on the basis of enrollment; staff is assigned on the basis of enrollment and class-size policy. Principals review special needs of a school with the Superintendent and allocations are made based on the school's needs and the benefit of the system. Technology needs are reviewed on a building basis and centrally to ensure that equipment is allocated appropriately.

Maintenance needs are enumerated individually and handled centrally, ensuring that each school's individual needs are met. A long-range restorative maintenance program covering every school in the district was developed with the help of outside consultants.
