Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

A wide-ranging group of stakeholders has contributed to the development of a vision and theory of action that is guiding the continuous improvement of our school district. The WPS Strategic Improvement Plan represents our commitment to our students and school community through a focus on personalized teaching and learning, building the capacity of teachers to design and implement high quality performance assessments, use the principles of Universal Design for Learning to develop curricula and instructional frameworks, and create trusting, respectful, and supportive relationships with students and families. The goal of the plan is to ensure that all Wilton graduates will demonstrate high levels of academic achievement, and will be innovators, collaborators and creative and critical thinkers who are socially responsible, civic-minded and have internalized the virtues of compassion and empathy. Building and district leadership teams develop and implement action plans that align with the Strategic Plan. School-based teams meet throughout the year to evaluate progress. A results-driven approach is used to identify both quantitative and qualitative results that are reported annually to the Board of Education. School administrators, counselors, and social workers continuously monitor student attendance and intervene immediately to prevent and address truancy issues. Active parent involvement in learning is supported in a variety of ways including: partnership events with the PTAs; learning celebrations that showcase activities, class displays, and samples of student work; and parent participation on special committees (e.g., Technology Advisory Committee, Curriculum Review Committees, Nutrition Committee, etc.). In the area of special education, we continue to provide services to students eligible under IDEA through a continuum of district supports and services. The goal is to ensure the provision of all mandated services in a manner that is compliant with state and federal regulations, best practices, and current research. Students are educated with their non-disabled peers in the general education classroom to the maximum extent as considered appropriate for each individual student. Students' instructional environments may include general education (with or without paraprofessional support), services delivered in the general education setting, special education classes, in-district special programs, or other appropriate placements. At the preschool level, young children are served in integrated preschool classrooms and through itinerant support services. In addition to special education services, the district also provides related services to students with disabilities. These services may include speech therapy, occupational and physical therapies, applied behavioral analysis behavioral consultation, counseling, transportation, the use of specialized equipment, mental health team supports, and life planning sessions. Assistive technology services are provided by appropriately credentialed district staff. The goal is to support increased student interaction within social, instructional and community environments. At the high school, transition services are provided to assist students and their families in planning for post-secondary options including additional education and/or employment.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Because of the limited diversity in our school and community, Wilton strives to reduce racial, ethnic, and economic isolation through programming in the academic, guidance, fine arts, and co-curricular areas as well through student participation in service projects. At the elementary school level, programs are designed to reduce racial, ethnic, and economic isolation. School-wide behavioral programs, including developmental guidance programs, seek to enhance student skills in the awareness and understanding of differences. The social studies curriculum provides opportunities to help students develop understanding of cultural diversity and the history of various regions. In Grades 3-5, team projects focus on increasing cultural understanding through the study of the fine arts and world languages. Elementary school service projects support local, national, and international communities. Our middle school continues its goal to reduce racial, ethnic, and socio-economic isolation. Continually evolving interdisciplinary team projects are designed to help raise students' awareness and understanding of diversity issues and differing cultures. Programs in the fine and performing arts promote understanding of cultural diversity. In addition, visiting presenters provide cultural and historical presentations to students. Service projects heighten student awareness and concern about racial, ethnic, and economic conditions. The school also designs a world language week and participates in an annual International Art Exchange. Programs at the high school provide students with a range of opportunities to reduce racial, ethnic, and economic isolation. Students have participated in the "A Better Chance" program, which provides inner-city students with the opportunity to live in Wilton and attend high school. Several curricular programs include the study of diversity-related themes. A wide range of activities designed to increase student awareness of the diversity of individuals and cultures included guest speaker presentations, diversity related co-curricular club participation, the hosting of international exchange students, fine and performing arts presentations, celebration of the annual world language and arts festivals, and student-generated service projects.

Equitable Allocation of Resources among District Schools

The Board of Education recognizes its responsibility to develop and implement a budget that provides appropriate resources across schools, promotes continuous improvement, affords sufficient flexibility to respond to changing needs, complies with all Federal and State mandates, and provides for necessary maintenance and improvement of school facilities. The Board ensures equitable allocation of resources through a commitment to support appropriate organizational structures that are responsive to the unique academic, social, and emotional needs of students. The budget seeks to maintain Board approved practices concerning class sizes, and school and district program priorities. Special education staffing is allocated based on specific student needs defined through the IEP process, the number of students served, and compliance with IDEIA. The budget also provides equitable allocation of technology resources to provide the infrastructure and training that ensures that all students and staff excel in an increasingly technology-based global community.
