Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

During the 2021-2022 academic year, the district's improvement plan was revised to reflect our priorities of academics and culture & climate. This strategic operating plan will guide school improvement planning to ensure alignment of school improvement plans and district coherence. We will continue to focus on the implementation of standards aligned curricula, intentional planning and the use of data to meet the needs of all students, including students with disabilities. To this end, work continues at all levels on the use of data to inform strategic instructional decisions at the classroom, school and district level. In addition, the district rolled-out a new data analytics program to assist our data collection and analysis efforts.

The district continues to provide support to implement Positive Behavioral Intervention and Supports (PBIS) and Multi-Tier Systems of Support (MTSS) using a differentiated professional development model. In addition to strengthening Tier 1 instruction, all schools are implementing Tier 2 and 3 strategies including: functional behavioral assessments, behavioral and academic intervention plans and individualized wrap-around supports. A district-wide SEL coordinator and building-level SEL specialists were added to support district priorities and strengthen our MTSS model.

The Office of Pupil Services and Special Education monitors IEP progress to ensure each student derives educational benefit from their individually identified goals and objectives. Job shadowing and internship experiences were offered to make meaningful connections to post-secondary career options for special education students in grades 9-12.

The Office of Family and Community Partnership continues to focus on strengthening partnerships with stakeholders. Written reports were compiled by the Office of Family and Community Partnership, which included information on the physical plant, website, communication methods and kind and quality of interactions with families at each building.

As a result of the findings, professional development and resources were provided to build staff skills to partner effectively with all families through activities such as student-led conferences, home visits and academic evenings were held at the elementary and secondary levels.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The district has made efforts to reduce racial, ethnic and economic isolation during the last school year by participating in minority educator recruitment programs, fairs and using online sites to recruit diverse staff. The district facilitates programs and activities to increase staff and student awareness of the diversity of individuals and cultures, such as study circles. The study circle model is designed to increase student awareness of the diversity of individuals and cultures.

The district continues to implement the Multi-Tiered Systems of Support (MTSS) framework to strengthen Tier 1 instruction and support all students - the core of our equity work. Our ongoing goal is to increase overall student achievement, reduce students at-risk for reading and mathematics failure, and to accurately identify students for special education services. In addition, the district employs teachers to provide services to English learners at all levels. Two teachers have ARCTELL program training and a cross-endorsement in Teachers of English to Students of Other Languages (TESOL).

In an effort to reduce racial, ethnic, and economic isolation, the district offers summer enrichment to all students entering grades 1-12 at no cost, in addition to after-school enrichment clusters at the secondary level, i.e., grades 6-12.

Equitable Allocation of Resources among District Schools

The allocation of resources for the Windsor Public Schools is divided into two major functional areas: personnel and non-personnel. The district ensures equity by allocating teacher positions based upon the Board of Education guidelines for teacher-student ratio and based upon student need. Class-size guidelines and support staff ratios vary by educational level, elementary, middle and high school. Staff allocations are adjusted within the budgetary constraints when guidelines are exceeded. The district allocates resources including supplies, materials, instructional equipment, and replacement textbooks on a per pupil basis distinguishing between the elementary and secondary levels. Resources are distributed based upon student need as the demand for supplemental instructional services may be greater in one building versus another. Maintenance and capital programs are developed and allocated across the district on a needs basis, ensuring major maintenance and capital needs of each facility are appropriately met.
