Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Planning for continuous school district improvement has been guided by the district's Strategic Plan as extended into the 2020-2021 school year in which approximately 25% of Woodbridge students learned remotely with dedicated remote-learning teachers. Given these circumstances, high priority for both in-person and remote instruction was placed on technology integration, including for students with disabilities. District administration, faculty, and staff developed and implemented a variety of activities to support students' social and emotional development, including family outreach to engage all parents/guardians, especially those whose children were learning remotely, in supporting children's learning. Additional district improvement focused on culturally responsive education at the elementary level, with specific professional learning applied by grade-level teams. Finally, led by the District Safe School Climate Coordinator, District administration and wellness staff implemented student-specific plans to prevent truancy.

Efforts to Reduce Racial, Ethnic and Economic Isolation

During the 2020-2021 school year, approximately 2% of learners in the Woodbridge School District were Open Choice participants, both directly and indirectly reducing racial, ethnic, and economic isolation. All District teachers participated in professional development focused on culturally responsive teaching and learning, which built on earlier years' professional learning. The District's Community & Diversity Committee celebrated its fifth year of vibrant existence by, among other things, beginning to draft a policy related to a vision for inclusivity, and expanding human resources capacity to support minority teacher recruitment.

Equitable Allocation of Resources among District Schools

As a one-school district, the Woodbridge School District allocates district resources at Beecher Road School to support the needs of all students. Particular emphasis is placed on students with identified special needs, students who are English language learners, students in need of scientific research-based interventions, and students who are talented and/or gifted. Formal budget development begins at the teacher and team level and proceeds through school administrators working with the Superintendent and the Director of Business Services & Operations to support District and school goals and ongoing excellence.
