Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The words, "Our primary purpose is to improve student achievement" appear at the entrance to each school. Our goal is to ensure that by the time our students graduate, they are prepared to compete with anyone, anywhere for any opportunity. Our district work is driven by our strategic plan. This plan, found on our district website, was developed and continues to be monitored by teachers, parents, administrators, community members, and elected officials. That plan contains three major focus areas, action steps, and accountability measures. We have also developed a Vision for a Graduate or global competencies to ensure our students are prepared to be successful within a globally competitive workforce. Each of our five schools write School Improvement Plans, aligned to our Strategic Plan.

Through strong teaming structures at every level, we employ a highly collaborative approach, anchored in student learning data, to drive instructional change and improvement. This collaborative approach begins with pre-school. Teachers work together to assess our learners and tailor instructional plans to meet individual student needs, both in terms of remediation and acceleration. We have worked to establish a strong intervention system in literacy, mathematics, and behavior to provide interventions when gaps are identified at the earliest level. The district has supported the implementation of a coaching model to enhance regular classroom instruction. The district has expanded the positions of "specialists"(math and literacy) to create more opportunities for interventions, to address academic gaps. With an increased number of students who are English Learners, we have been committed to hiring certified EL staff to assist with language acquisition. We see the use of technology as a resource for improving, enhancing, and personalizing instruction, particularly at the secondary level. In the past few years, we are implementing a districtwide STEM vision, to support already strong arts and music programs. In addition, we have developed six (6) pathways at Bethel High School to prepare our students for the global workforce. Our students have proven to be highly successful in extra-curricular competitions. Advanced Placement courses along with opportunities to earn dual credit at neighboring colleges have enabled many of our students to earn significant numbers of college credits prior to graduation.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The racial, ethnic, and economic makeup of the Bethel Community continues to evolve. In-migration of families from foreign nations and neighboring communities requires continuous review of school programs and academic services to ensure valid inclusion of all students into the school system. Special programming for parents of children who do not speak English, attempts to provide information in multiple languages, evening classes for non-English speaking parents, and tutoring for children have proven to be effective in reducing isolation. We continue to improve our efforts. Over the past several years, the Board of Education and district have set goals to develop an inclusive learning environment, actively working on actions to reduce unconscious bias and create an inclusive environment within our schools. We provide multi-tiered, intensive reading, mathematics and behavioral interventions with the goal of having all children at grade level. We are in the process of training all of our school staff in restorative practices. We have instituted programs to enhance the cultural competence of our students and staff. We have also been focused on expanding district social-emotional learning initiatives (Pre-K-12). A range of clubs coupled with a significant service-learning program directly attack any evidence of social, racial, ethnic or economic isolation that might remain in our community. Extensive work is done to address cyberbullying and online behavior. New policies and regulations, coupled with staff training and required digital citizenship courses for students aim to teach all community members responsible technology use.

Equitable Allocation of Resources among District Schools

The budget is viewed as a statement of our educational & leadership philosophy expressed in dollars. The budget is an opportunity for the Town, school system, and its citizens to debate & set priorities aligned to our Strategic Plan. Construction of a school budget in the Bethel Public Schools entails a high level of staff involvement. Each principal leads a committee of teachers to establish funding priorities for the coming school year. School budgets are developed to address specific academic initiatives & student needs. We ask, "How will these funds improve student achievement or expand opportunities for our children?" School administrators examine all aspects of the educational & extra-curricular program and follow the process through the Superintendent's recommendation to the BOE and Town Meeting. Both the Superintendent & BOE examine carefully the proposed appropriations to each school to ensure a clearly defined/equitable allocation of resources. Because the Bethel budget process involves an independent Board of Selectmen & Board of Finance, a Town meeting, and an annual referendum, all constituents focus close attention on each dollar expenditure.
