#### Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

\* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

### Performance and Accountability

#### District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

<sup>1</sup> NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. <sup>2</sup>The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

<sup>3</sup>Only students assessed in all four areas are included in this calculation.

<sup>3</sup> Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

<sup>4</sup> Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

### Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

## Branford School District

### Narratives

#### School District Improvement Plans and Parental Outreach Activities

In 2022-23, the Branford Public Schools focused on two main goals aligned with the District's Strategic Success plan: (1) creating safe and supportive schools and (2) building teacher capacity to design challenging, standards-aligned learning experiences that cognitively engage all students.

Action steps towards goal (1): (a) Increase the number of mental health professionals available at each school to support all students, particularly those with disabilities. (b) Improve classroom instruction related to social-emotional-behavioral wellness through training in and implementation of Responsive Classroom (elementary) and Restorative Practices (secondary). (c) Provide school security guards at all levels with a focus on relationship-building.

Action steps towards goal (2): (a) Provide professional learning for teachers focused on discipline-specific inquiry (secondary) and foundational math and reading skills (elementary). (b) Provide afterschool enrichment and academic support at all levels. (c) Engage in targeted curricular revision. (d) Increase intervention and supports for all students, including those with disabilities and English Learners. (e) Deepen use of common assessment data and collaborative time to support targeted, individualized instruction.

For students with disabilities, students with dyslexia are provided intensive reading instruction using Level-I Certified Wilson instructors. For lower-incidence handicaps, the District maintains ABA-based programs for students in Pre-K and K-4 levels, life skills programs at our intermediate and high schools, and an 18-to-22-year-old transition program. To support behaviorally complex students, the District employs Crisis Prevention Institute trainers to train staff in de-escalation, multiple BCBAs working as teachers and as cross-departmental consultants, and RBTs in support of that work. Additionally, on-staff facilitators and a trained neurocognitive evaluator provide enhanced evaluations to inform decision-making. Special education staff have been supported in using both macro and micro-data points to determine intervention effectiveness, need trends and leading indicators, and PD needs against which Department budgets are constructed.

District efforts at truancy prevention focus on reconnecting students to school, both through regularly scheduled instruction such as advisory and morning meetings and concentrated outreach to families. School-based student support teams meet on a weekly basis to identify and reconnect disconnected students and families, implementing a variety of strategies, from ongoing wellness check-ins to regular home visits.

Teacher conferences are offered both virtually and in-person, and all schools host a number of family nights, focused on educating families about the content of their children's learning and on providing strategies for families to use at home to support that learning. The District uses multiple pathways to communicate with the families, including the BPS website and the Talking Points app, both of which provide translation into a variety of languages spoken by BPS families. Families are provided with ongoing updates on their child's progress through the District student information system and/or regular communication from the classroom teachers.

#### Efforts to Reduce Racial, Ethnic and Economic Isolation

In 2022-23, a total of 53 Branford students were enrolled in schools of choice, including magnet and charter schools, and 48 non-resident students attended schools in the district through the Open Choice program. The District's commitment to its Choice students included ensuring that all students, regardless of home location, were able to access transportation home when participating in afterschool enrichment programs and other activities.

As the demographics of the Branford Public School community continue to evolve, the District has been striving to increase the representation of minority staff members through informal outreach and recruitment, and collaboration with our area RESC.

In 2022-23 the District maintained its commitment to Diversity, Equity, and Inclusion by continuing to expand school and classroom library collections to better reflect the diverse BPS student body and to offer readers an opportunity to explore worlds other than their own. DEI is an integral consideration in all curriculum development, including professional learning that focuses on equity-centered pedagogy. The high school continued its collaboration with the Anti-Defamation League to bring "No Place for Hate" to the BHS community, and clubs at the high school and intermediate school created events designed to raise awareness and recognize the diversity of individuals and cultures in the BPS community, including those for Women's History Month, Black History Month, and LGBTQ Pride. Students in elementary schools attended multiple programs intended to increase their awareness of different cultures and their arts. Finally, in order to ensure that all BHS seniors had full access to senior activities, the district covered all associated costs.

## Branford School District

### **Equitable Allocation of Resources among District Schools**

The Branford School District's budget development process is designed to provide equity across schools and programs while addressing student needs. Teacher leaders, school principals, and district department leaders generate budget requests that are considered by the central office staff through the lens of equity in the allocation of resources, and with consideration for the district's emerging needs and how those needs are distributed across the different schools and programs.

As the budget process unfolds, there is additional scrutiny and ongoing communication and collaboration with school and department leaders to ensure equity across the levels. Reasonable class size continues to be a priority for the district as does the support of the district's strategic success plan and a focus on emerging needs, such as students' social and emotional learning, the inclusion and education of students with disabilities, and supporting students from diverse backgrounds.
