Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Chaplin Elementary School offers support services for all students in need of Tiered intervention for either academics or behavior. CES has a full-time Math Interventionists and one dedicated to ELA. Each class has a dedicated, daily intervention time for Math as well as a time for ELA. Our schedule provides teachers with vital weekly data time to collaborate with interventionists, administration, and support services in order to use data to guide and analyze numerous data points and determine which supports students should receive through Tier 3 and Tier 2 interventions. A Board-Certified Behavior Analyst remained at CES this past year working with the school psychologist, classroom and special education teachers- making recommendations, participating in PPTs and 504 meetings, and to provide professional development in the areas of behavior and classroom management.

Our Special Education Team meets weekly with the Director of Special Education to assess current academic programs and behavioral programs, student progress, staff and resource utilization at CES. Understanding the importance of home-school communication and support, all staff members, working with students, communicate regularly with parents to update them of student progress on their individualized goals.

Regular communication with the parents and guardians from the administration, the school nurse, and classroom teachers allows the school and families to discuss many topics including the importance of attendance. Prioritizing a community in which all students have a sense of belonging and acceptance, our monthly core values guide our instruction in personal responsibility.

All grade levels send a monthly newsletter to our families with updates about the classroom and suggestions for how parents can support their children at home. Teachers communicate regularly with individual families in order to give specific feedback about student growth. CES conducts the One School, One Book project in which all families receive a copy of a chapter book that is read by the whole school across two to three weeks. Staff make videos for families to follow along with the reading at home if they so choose.

CES held two academic Family engagement nights this year. The fall event focused on literacy while the late winter event focused on Math. CES held three after-school concerts for our families. Individual classrooms have also developed activities that go home with the students for a short period of time to engage the family in reinforcing the skills and concepts being worked on in school. Home activities rotate among the students throughout the school year.

Our efforts to include parents in decision making continues to increase as all stakeholders better understand the importance of a collective endeavor to help the students reach their potential. Information collected from numerous parent surveys guided us in providing for our families throughout the school year. The surveys also provided guidance for professional development for the staff.

Newsletters were sent to parents that explain our standards referenced report card as well as to explain NWEA scores. Parents were invited to schedule time to meet with teachers or school administration.

Many more parents joined the school PTO. This group of parents had an immediate impact by helping to fund classroom field trips and activities.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Chaplin Elementary School is a Pre-K through Grade 6 School, located in the northeast corner of Connecticut. The school has a population of 149 students, with 19% of the student population having a diverse ethnic background.

Our fifth-grade students continue to participate in an inter-district program with schools from the northeastern portion of the state. Faces of Culture brings together students who have little opportunity to engage with culturally diverse peers to broaden understanding and respect for others by exploring the peoples and cultures that make up our nation. These experiences open the eyes of students to topics such as biases and prejudice.

Connecting our literature program with The Ridgefield Playhouse offerings to Title I schools, students were able to view historical performances that connect to our texts and topics. The units of study in literature allow our students to explore the impacts that actions of different groups have on society as a whole and the groups that are directly affected. Readings inform the students of historical background knowledge that allow them to use compassion and empathy as well as realize that people of all types have similar needs to maintain safe environments and to be a part of the same local community.

The Media Specialist focuses learning times on having students learn about different cultures and time frames in history. Students discover that similar issues are spread across the world. They discuss ways in which they can change the small area in which they live.

Chaplin Elementary School qualified again for free breakfast and lunch for all students. Maintaining an awareness to our student and family needs this year was critically important as we cooperated with outside groups to provide for families in need.

The students of Chaplin have the option of enrolling in the local inter-district magnet school which selects students by lottery.

Equitable Allocation of Resources among District Schools

Chaplin is a one school district. Responsible use of funds ensure equal access to digital resources for all students by maintaining a classroom one-to-one digital environment. All resource staff are available to work with students in every class Pre-K through grade six as well as to consult with both certified and uncertified staff in order to give all students an equal chance for success across all avenues. Chaplin Elementary School held a Summer Learning Academy prior to the beginning of this school year. This gave students the opportunity to maintain their skills and to move forward on skills in which a gap had been created. CES hosted an after-school learning academy for students in grades 1-6 in order to give those students a little more attention in the areas of ELA and Math.
