Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

EASTCONN's magnet high schools and clinical day-treatment programs provide educational services, using research-supported models, which serve a wide variety of student needs and interests. Quinebaug Middle College (QMC), on the campus of Quinebaug Valley Community College (QVCC) provides highly personalized academic experiences through a middle college model providing the opportunity for students to earn their associates degree a long side their high school diploma. Arts at the Capitol Theater (ACT) School provides an integrated curriculum in an authentic performing arts learning environment, where students are engaged in the production of numerous arts performances. EASTCONN's clinical-day treatment programs provide intensive individualized, high-interest instruction taught by special education teachers with embedded support from psychological and behavior support services, vocational staff and related service personnel. In each school, EASTCONN has established strategic goals that continue to advance evidence-based instructional and behavior management strategies that are focused on increased student learning. To promote student achievement, our strategic plans guide professional learning opportunities throughout the year for teachers, instructors, and administrators in all of our schools and programs that help educators address the needs of diverse learners (and families) with an emphasis on equity, diversity and inclusion.

A driving emphasis of professional learning is the advancement of a personalized, competency-based approach to learning and the integration of SEL with academics. Utilizing our portrait of an EASTCONN learner as our guiding force, our vision is to graduate resilient, self-directed people. As we continue to assess the impact of COVID-19 on learning, we utilize information gathered to guide our strategic planning goals. We have used COVID-19 as an opportunity to transform our practice and engage students and families in the learning process by instituting a 1-to-1 computing. The implementation of Chromebooks for every student has provided an intervention strategy for students who are having attendance issues to remain connected and have access to learning outside of the school walls. The application of common language, practices and policy regarding a competency based learning framework are strengthening the learning process. Ongoing feedback via surveys to analyze families, students and staff readiness and needs for the next levels of learning are regularly utilized. Our ultimate goal is to engage families in the learning process by instituting student led conferences, a strategy that fosters student agency and successful parent engagement.

Family engagement efforts include the position of a Family/Community Partner Liaison, with a goal that all families feel connected. Family information nights, and multiple student showcases occur throughout the year. Ongoing communication with families to provide information and resources to support learning from home are regularly provided via newsletters, virtual meetings and in person home visits, and social media. Our access to technology enables families unable to participate in events personally, including parent meetings and PPT's, to attend virtually.

Efforts to Reduce Racial, Ethnic and Economic Isolation

EASTCONN promotes and embraces diversity, equity and inclusion in its own schools, programs and services. Our magnet high schools exist as a response to the need to reduce racial, ethnic, and economic isolation in northeastern Connecticut. As a result of our recruitment efforts, our schools continue to be among the most diverse in the region.

EASTCONN focuses its student outreach and recruitment activities to attract racial, ethnic, and economic minorities to its schools. We work with superintendents, principals, and guidance counselors to ensure that we reach a diverse applicant pool. Information and brochures describing programs and application procedures are written in Spanish and English for distribution in local schools, social-service and community-based organizations, and media serving cultural and ethnic minority communities in the region.

In our schools and programs, EASTCONN develops culturally responsive curricula that promotes respect for the diverse cultures of our students and families. Public performances by students in our schools celebrate diverse cultural arts and bring together audiences representing all cultural communities in the northeastern region. We provide professional learning and support to districts in the area of Title III services, and facilitate an ELL consortium. Our implementation of CSDE inter-district grants are focused on reducing racial, ethnic, and economic isolation and improving academics have been vital to building awareness, understanding and connections across our region's communities. The experiences provided by these grants are vital in our rural region that lacks transportation, experience, reduced economic stability and has few cultural venues.

In an effort to bring diversity to our region and profession we have participated in the RESC Alliance and CSDE Minority Teacher Recruitment partnership .As a result, EASTCONN schools participate annually in a statewide recruitment fair to meet and share our teaching opportunities with minority candidates.

In partnership with the RESC Alliance we hosted two statewide Igniting Change workshops with an equity focus and the goal of understanding and reducing bias to build improved partnerships in the learning process.

Equitable Allocation of Resources among District Schools

EASTCONN continues to maintain the fair and equitable distribution of resources across all of its programs, schools, and services to ensure that each student has access to a high-quality education. Our magnet schools' governing boards, which include superintendents from our partner districts, ensure that we provide equitable resource allocation to each of our schools. As magnet schools, financial support is grant-funded and established via legislation; our districts also provide fiscal support to the schools. We retain a zero-based budget process, allocating all resources that are critical to the effective operation of the schools. EASTCONN also collaborates through the year with our region's districts to provide support needed to meet high performance standards, including the assignment of appropriate, high-quality staffing, distribution of technology resources, and professional learning. We continue to maintain regular processes for review and monitoring of our current programs, and to plan for the appropriate introduction of new programs and services that will serve our students and districts across the region.
