Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

In Eastford, we continue to collaborate with our regional center, EastConn, on the development of a personalized approach to student and staff learning. Our Strategic Plan includes outcomes in the areas of Student Achievement, Climate and Culture, and Communication and Community Partnerships. Specifically, we are working to create and revise curriculum documents to align with the Standards and new instructional resources, and to align our teaching and assessments with the Science of Reading legislation. Students in grades five through eight held student led conferences for the first time this spring. Our teachers and administrators use data from both standardized and in-house assessments and observations to inform instruction and implement personalized success plans to improve student achievement. Students participate in assessments that are analyzed for both group and individual performance on specific skills. The Common Core Standards-Based Report Cards and assessment data are maintained electronically and follow students from grade to grade to facilitate curricular articulation. Eastford Elementary School has an MTSS team (Multiple Tiered System of Support). The team analyzes data and assists teachers in developing action plans, monitoring the progress of students and communicating performance with parents. Parents are invited to examine student data at parent conference times or upon request. Special education teachers and general education teachers collaborate at MTSS meetings to ensure that action plans for regular and special education students are skill-specific and carried out with optimal fidelity and efficiency. In the area of special education, Eastford has focused on increasing the inclusion of all students with disabilities in the regular classroom. The special education teachers are experts at inclusion, and they co-teach at many grade levels. Eastford Elementary has few attendance and truancy issues.

The Eastford District is fortunate to have four parent groups, the Eastford PTO, the Middle School Fundraising Group, the Sports Boosters, and the Readiness Council. All stakeholders regularly help the school function as a collaborative, inclusive, and resourceful educational community. Our PTO and the Middle School Fundraising Group actively fundraise to bring special events, resources, and cultural programs to our students and families. Students at all grade levels participate in educational field trips. We are especially proud of our partnership with Mystic Seaport and Mystic Aquarium. The Readiness Council continues its efforts to support the preschool program and attempts to include all parents who have pre-kindergarten children in outreach communications and events.

The school issues a monthly newsletter to inform families about academic and extra-curricular activities. Town-wide events are also published in this newsletter. The school's website and email communication are utilized for home-to-school communication. Teachers utilize Google Classroom in grades three through eight. This platform enables students and families to access schoolwork and assessment results electronically. We receive feedback from families, students, and staff on areas of strength and areas that need improvement via our annual school climate survey. Feedback is used to make improvements and to create goals for the following school year.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Eastford School District is a one-school district; the Eastford Elementary School houses grades PK-8 and most high school students attend The Woodstock Academy. Eastford has little racial or cultural diversity, yet staff members continue to look for ways to support efforts to reduce racial, ethnic, and economic isolation. The curriculum is aligned with discipline-based standards as well as Connecticut's Common Core of Learning. Up-to-date curricular goals and materials provide a powerful vehicle for multicultural education and allow for the seamless inclusion of current events and topics that incorporate real-time examples that support the curriculum. Middle school staff aims to empower students to become change-makers in their communities by providing opportunities to learn, write, speak out, and collaborate with experts and organizations. Experiential learning practices in the classroom foster critical thinking, and empathy, and build 21st-century skills, including technology proficiency and effective communication. Recent purchases of teaching materials that reflect the diversity of the communities surrounding Eastford further enhance our programming. We continue to increase the resources of the Media Center. Book collections and multimedia programs are growing in volume and in diversity. Mobile computer labs have become extensions of the Media Center, through which our students have been able to collaborate with students throughout the United States and overseas.

Our students participate in offsite, in-person experiences or have live interaction with on-site guest speakers that emphasize the importance of becoming active, constructive members of a larger community. One example is learning about the Amistad with Mystic Seaport. Our staff also utilizes technology applications and resources to provide students with opportunities to participate in virtual field trips and interact with academic experts located throughout the world. Additionally, we participate in regional programs offered through EastConn that foster communication and relationships between Eastford and other more diverse communities.

Equitable Allocation of Resources among District Schools

Eastford is a one-school district. Resources are allocated within the one school to equitably address all student needs.
