Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The Ellington Public Schools developed district and school plans to support our mission and vision, sustaining a culture of learning that challenges and inspires all students on their personalized educational journeys, and growing exceptional learners and leaders who are courageous, reflective, and contributing citizens of the world. The improvement plans articulate goals and strategies in three areas of focus: efficient operations, high-quality instruction, and emotional intelligence. The plans are available on the district website through the "Annual Report" label under the "District Information" tab.

Communication remained a priority this year as we set a foundation for deeper transparency with families and the broader community. A key vehicle to communicate the work of the district has been the Board of Education's Communications Committee, which guided communication initiatives and resumed a popular newsletter this spring. School Messenger, Twitter, and Facebook were used to celebrate successes and convey critical information, supplemented by 20 videos on specific program elements and activities, produced in our "Education in Ellington" series. The district's website was regularly updated to include the use of social media feeds, which provide real-time updates on what is happening in schools. Open houses were held at each school and in-person family engagement activities returned to their normal robust schedule by the Spring. Families were informed through messenger and the website about student learning and opportunities for engagement at the schools. Recognizing that effective communication is a two-way process, the district invested in improving our use of the climate survey to better understand the experiences and perspective of students, staff, and families. The key findings from the surveys were communicated back to staff and families, along with initial thoughts on how the results would inform 2023-24 school improvement plans.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Over the past decade, Ellington has steadily increased the number of students enrolled in its schools through the Hartford Open Choice Program. The district remains committed to increasing choice student enrollment as we approach the top tier of participation. Students of color are represented fairly evenly across the three elementary schools. (Incidentally, the percent proficient and average scale score on SBAC in ELA and math are a few points higher at the elementary school with a higher percentage of students of color than the scores at the other two schools.) A growing number of Ellington resident students participate in magnet school programs.

A committee of teachers selected book titles to update classroom libraries with more diverse texts inclusive of all demographics. Grade 3-6 classrooms libraries were updated this year. The district collaborated with CREC through the Minority Teacher Recruitment program to continue to diversify the teaching force and added administrators of color in Elementary and Secondary positions. The district offered transportation to Hartford students for events at the high school and for attendance in summer math and reading camps to ensure access and promote participation. Fourteen high school departments incorporated culturally inclusive projects and resources in the existing curricula. Cultural heritage learning and personal narrative/story-telling were piloted in advisory classes. An inclusive process collected input for developing a vision of "what it means to be an Ellington Knight".

Equitable Allocation of Resources among District Schools

The 2022-23 school year saw a continued commitment to providing resources for all students across the district. Staffing has continued to focus on supporting student learning to increase access to instructional support in all schools. The district continued work to decentralize supports and resources to the schools to increase support for all students. In studying class sizes and enrollment trends across all schools, the district continued to implement a new Elementary School Enrollment Policy, which works to better ensure more equitable access to programming while balancing class sizes.

The district continues to monitor the implementation of this new policy and work to continuously improve equitable allocation of resources across the district. Finally, each school develops and maintains plans for students in need of support or intervention; this process focuses the administration and staff to appropriately prioritize available resources based upon student need. Based on the analysis of student intervention data, as well as overall student performance data, the district reorganized the intervention model to more equitably distribute staffing resources.
