Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Elm City College Prep (ECCP) is a member of the Achievement First (AF) network of schools, and as such benefits from the latest available research, training, and support in providing differentiated instruction to students with special needs or requiring additional support. Team Special Services works closely with our schools' special services leaders to design programming and interventions to meet the needs of the current school population. A foundation of that support is a "special services playbook", a manual that serves as a resource to school leaders, special services leaders, and teachers in identifying and addressing needs of all students. In addition to that playbook AF provides all staff with professional development focused on mindset, co-teaching, and differentiation.

ECCP is building an inclusive environment to ensure all our scholars can achieve academically and behaviorally at high levels. Co-teaching is one vehicle for reaching inclusiveness. Additionally, co-teaching allows teachers to collect more data, provide more feedback, and offer more targeted support to lead students to the same rigorous academic and behavioral outcomes.

ECCP works with the New Haven district for the IEP process and has implemented the use of the CT SEDS system. The Amistad team meets with the New Haven district team each month to collaborate for upcoming IEP meetings. Amistad Academy also ensures that parents and families have a space to share at the start of each meeting and to be active participants in their child's IEP meeting.

Maintaining high daily attendance rates and low chronic absenteeism rates are high priorities at ECCP. This work has intensified and become even more critical after the Covid Pandemic, as students were still missing many school days due to COVID illnesses as well as other reasons related to the pandemic. Every day, school staff reach out to parents and guardians to determine the reason for a student's absence. This step is critical in unearthing the reasons why students are absent. The attendance committee meets regularly to review attendance data to determine additional supports that are needed for students, as well as find ways to celebrate and incentivize strong attendance habits. ECCP continues to focus on ensuring student safety and maintaining family engagement as core components of student attendance.

Families receive frequent communication from teachers and school staff to engage in learning activities. Report card nights continue to be well attended. Many families are involved in the planning and leadership of school events through family leadership councils. Teachers are highly accessible to families, with their cell phone numbers being available to families to reach them after school hours. Community outreach and student recruitment is led by a dedicated Community Outreach Associate who coordinates efforts and explores partnerships with the community our school serves.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Elm City's mission is to deliver on the promise of equal educational opportunity for all of our school's children. We believe that all children, regardless of race or economic status, can succeed if they have access to a great education. ECCP schools provide all of our scholars with the academic and character skills they need to graduate from top colleges, succeed in a competitive world, and serve as the next generation of leaders in our communities. We believe the fulfillment of this mission and the reduction of the achievement gaps based on race and economic status will reduce the isolation for our scholars.

We aim to have our schools reflect the demographic composition of the neighborhoods we serve, and prepare our scholars to achieve academic success, college acceptance, and college graduation at the same rates as their more affluent peers. The schools partner with the Achievement First's recruitment team to carry out a comprehensive recruitment strategy consisting of direct outreach, Refer A Friend campaigns, information sessions, school-based open houses, presentations at local education agencies and community based organizations, neighborhood canvassing at nearby high-density housing and building locations, and geo-targeted mailings to reach families across the region. Our staff recruitment utilizes head hunting, partnerships with local universities and National, such as NFBLE and Profound Gentlemen, to ensure we are intentionally diversifying our candidate pool. In addition, we advertise our career openings across diverse areas and websites to establish our brand awareness and openings with candidates of all demographics and backgrounds.

Preparation for the college experience begins in the 9th grade with the Foundations of Leadership course. This four-year program is designed to help scholars learn how to navigate the more complex high school and post-secondary school world, with an emphasis on overcoming obstacles through effort. Each year culminates in scholars completing high stakes applications which prepare them for the college application process. High school scholars apply to and attend a variety of summer programs to prepare them for the college experience and the diverse populations they will encounter when moving onto college.

Equitable Allocation of Resources among District Schools

The Elm City College Prep (ECCP)'s district is comprised of 2 individual school campuses. Each school has a Director of Operations (DSO) that is responsible for non-instructional activities within the school including budgeting and resource acquisition. DSOs from each campus across the Achievement First network meet regularly in a DSO Cohort to norm around processes, procedures, and activities within their schools.

The ECCP Board of Directors reviews and approves the annual budget, as well as the financial reports at each of their meetings. These include school-level detail with key comparable metrics. Financial reporting is centralized, Achievement First's Chief Financial Officer ensures resources are allocated similarly throughout the network.

ECCP regularly reviews data and adjusts the resource allocation process to ensure that it remains responsive to evolving student needs and maintains equity. This review may include input from school administrators, teachers, parents, and community stakeholders. Adjustments may be made based on changes in student demographics, academic performance, or other relevant factors.
