Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Highville has an active PTO. The PTO meets bi-monthly, and the principal and several staff members attend. Highville also has an “open door” policy, in which parents are allowed to visit the school at any time. They are encouraged to check in on their child(ren), volunteer in their child’s classroom, and attend field trips. The principal and deans address all parent concerns within 48 hours.

We had our first Daddy and Daughter Dance which brought out over 100 father/father figures to the event. We had a Son and Mom Bowling Event which was successful however, we will have a Mother and Son dance this year instead of the bowling due to popular demand. We have hosted a Trunk or Treat event by partnering with our local Car Club.

You can also find our Girl Scouts live Troop 60356 with our parents volunteering. Our after-school program provides activities and skills through fitness, art, culinary, and music. We keep are parents engaged through our website, social media, PowerSchool, and class dojo.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Highville Charter School is a one school district in an urban setting. We conduct a blind lottery. As such, we don’t control the demographics. Our student population is 99% black and brown students. The lottery application process is available via the Highville Charter School website.

We continue to recruit students to our school through utilizing multi-media and social media outlets. We participate in school choice fairs and have our documents translated into Spanish. Additionally we maintain a virtual tour of the school including narratives from our executive staff. Our continued efforts to reduce racial, ethnic/economic isolation are further enhanced by word-of-mouth advertisement. This is an effective tool as parents who may not see the information and have mentioned that their looking for smaller classroom for more detailed instruction.

Finally, we strive to maintain a culture of inclusivity by continuing courageous conversations about race and addressing unconscious biases, to broaden understanding and acceptance.

Equitable Allocation of Resources among District Schools

Highville Charter School is a one school district that is committed to the equitable distribution of fiscal resources across our school that supports instruction and learning.

Our budgeting model is grounded in accountability and empowerment. The budget has two (2) parts: (1) a position allocation, comprised of equitable, uniform staffing formulas that vary from year-to-year dependent upon retention of students from grade to grade, and (2) a discretionary operating allocation, designed to enable us to purchase through effective fiscal management, derive discretionary resources. We utilize online systems in the areas of procurement and payroll. In March/April, our Director of Finance conducts an allocation presentation with the executive team in order to review the school organization and staffing process in preparation for the new school year. During this time the needs are discussed and matched with current funding. We have enjoyed increased retention of our teachers prior to the pandemic and our salary increases are between 2-3%. This helps minimize the cost of setting up classrooms. The necessity to increase health coverage contributions has been negligible.
