Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Lisbon Central School (LCS) is continuously involved and highly dedicated to improving programs and services for all students. As a result, instruction is geared toward each individual, and every child achieves. LCS has an excellent School Research-Based Intervention Model (SRBI) as indicated by daily classroom performance and assessment data. Students continue to show growth on the SBAC assessment in both Reading and Math. There are ongoing efforts for the refinement and improvement of our special education services and programs. In an effort to broaden our continuum of services, flexible resource rooms continue to be utilized. This gives us the flexibility to provide a wider range of services for our students to meet their needs.

The Lisbon Board of Education has a Truancy Policy which is adhered to consistently. Our ongoing focus on this policy has allowed LCS to maintain a low truancy rate. Parents are collaborative parties when a student's attendance appears to be less than optimal. Our Administrators, school counselor, social worker, and school psychologist play pivotal roles in truancy prevention, engaging families as warranted in developing plans for at-risk students.

The LCS teachers and administrators make strong efforts in partnering effectively with families. Through the Positive Behavior and Intervention Supports (PBIS) model, the Cougar Code of Conduct, and the Teacher Evaluation Plan, parents are encouraged and included in the education of their child. Our teachers communicate with parents through email, phone calls, and other various home-school communications. Teachers also hold meetings regarding students' progress, as needed. We have implemented the Parent Portal for grades 5 through 8. This portal allows parents to view their child's progress and view the titles of missing and completed work. Parent-Teacher conferences are held twice a year to provide an opportunity for our families to learn about their child's progress. Our students take the lead on their conferences and identify areas needing improvement. LCS uses an outdoor marquee, bulletin boards, newsletters, and AdminPlus Notify system messaging to provide up-to-date information to the outside community. Our Dear Parents and Friends newsletter and Friday phone calls are sent by the school administration weekly to keep parents well informed of what is happening at LCS.

Teachers strive to maintain a positive school-to-home relationship through the use of the student's agenda books, emails, newsletters that outline assignments, Google Classroom, and the Parent Portal. Our open house is held at the beginning of the school year to inform and engage students and their parents in the exciting opportunities offered at LCS in STEAM, math, literacy, physical education, health, and early learning. Community members see firsthand how our students are integrating all areas of the curriculum into their learning at LCS. Parents are equipped with strategies to help their children at home. Summer School programming, summer learning packets, reading lists, and math enrichment opportunities are sent home with incentives for completion. Our LCS parents are important members of our school community and work with the LCS faculty, staff, and administration in the best interest of our students.

Efforts to Reduce Racial, Ethnic and Economic Isolation

An ongoing goal of the Lisbon School District is to reduce racial, ethnic and economic isolation. Over the past several years, upper grade students have participated in group discussions using famous works of art as well as musical compositions to determine the "artist's" message, the relevancy of the message in today's world, and cultural beliefs. Sixth grade students traditionally visit the United Nations in New York to study how organizations seek to influence policy decisions. Grade eight students typically visit Boston and learn about historic and current culture. Middle school grades typically enjoy a host of trips relating to local diverse topics. This year, due to the continued impact of COVID-19, only the Boston trip occurred; however classroom discussions still happened, related to the field trips which were suspended. Our eighth graders also are given the choice to select from several high schools which have diverse populations. Our students engage in academics, sports and extracurricular activities with other students from urban, suburban and rural districts.

In the lower grades, multi-cultural books, toys, dolls, puzzles, posters and foods are used to teach about racial and ethnic differences. Teachers also incorporate the topic of diversity into instruction. Additionally, classes throughout the grade levels typically do partnership activities with the Senior Center, the Lisbon Fire House, the community libraries and regional businesses. These opportunities broaden students' perspectives.

Additionally, professional development for staff incorporate strategies for trauma-based instruction, restorative practices, and multiculturalism to enable staff to bring students with diverse experiences to a shared understanding. Staff engaged in a two-part series of professional development, specifically regarding diversity. This training was conducted by the State Educational Resource Center of CT (SERC). Partnerships with a university in a semi-rural location and a small college in an urban setting have aided in the recruitment of diverse staff. This is an ongoing specific goal for Lisbon Central School.

Food drives are conducted and we also have a Social Needs Student Activity Account, which funds are used for supplying financial resources.

Equitable Allocation of Resources among District Schools

It is the goal and responsibility of the Lisbon Board of Education to ensure that each student receives an adequate and appropriate education supported by a fiscally sound budget. The Lisbon School District has done an exceptional job in ensuring that the elementary and junior high students have comparable resources for their educational experience. Our eighth graders are prepared to leave Lisbon Central School to attend specific high schools in the region. Lisbon pays tuition for these students at rates set by the high schools' districts. Our students receive a solid education and are prepared for college or career.

A comprehensive budget process begins in October. After numerous work sessions, a budget is submitted to the Board of Finance in March. A Town Meeting is held in May followed by a referendum. The school community is given ongoing opportunities to provide input. Lisbon is dedicated to providing equal access to opportunities for an optimal learning environment for all children.
