Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Middletown School District

Narratives

School District Improvement Plans and Parental Outreach Activities

With the implementation of Middletown 2024: Elevating Innovation, Creativity, and Equity Strategic Operating Plan (SOP) during the 2022-23 school year, Middletown Public Schools continues to strive toward meeting the needs of ALL students so that they will demonstrate personalized growth and achieve at high levels to thrive in life. This strategic operating plan includes bold goals related to the continuous improvement of teaching and learning; transformation of the operations, systems, and structures; development of choice and innovation models; and creation of equitable learning environments. Several key strategies to achieve these goals have been enacted since the adoption of the SOP for the 2021-22 school year, including the implementation of culturally relevant curriculum, personalized learning opportunities for students, instructional and social-emotional supports through a multi-tiered system of supports (MTSS), expansion of early childhood education, and the continued development of high school options and pathways.

In accordance with a key strategy of the SOP, the district's special education services the recommendations of the 2021-22 audit in order to make intentional changes to the allocation of resources and supports to be more strongly anchored in educationally sound decision-making practices, and to connect to mental health, social-emotional, and trauma-focused needs. These steps have included a reorganization to intentionally divide special education and student behavioral supports in order to provide stronger focus to each of these two areas, and the further definition and expansion of the Intensive Case Management program, including at the pre-K level. To support the social emotional learning, wellness, and mental health of all students, the Middletown Social Emotional Learning & Intervention (MSELI) has now been scaled to all elementary schools. This includes the use of a universal screen, CASEL standards, and evidence-based practices to incorporate social and emotional learning into the curriculum. Additionally, MPS continues to use the RULER framework at all schools.

MPS is committed to utilizing data-informed approaches to decrease rates of truancy and chronic absenteeism. MPS utilizes Unified Insights as a data warehouse to allow for comparisons between the many available data sources. Schools have begun to utilize new automated attendance technology to more accurately account for student attendance. Middletown High School is a member of the RISE network, providing access to attendance data visualization tools and collaborative processes for improving attendance for 9th graders and beyond.

Finally, Middletown 2024 was developed with full community involvement, including families every step of the way. The SOP forwards family and caregiver partnerships as a key strategy to create equitable learning environments. To that end, all schools in the district rely on families to collaborate to make key decisions and develop School Improvement Plans through School Governance Councils and School Leadership Councils. During the 2022-23 school year, the district also introduced the Parent Leadership Training Institute which is a series of workshops for parents and guardians to learn how to be leading advocates for families through an evidence-based curriculum.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Middletown continues to offer programs for students, staff, families, and community members designed to enrich interaction and understanding among Middletown's diverse educational community. Equity is central to the goals of Middletown 2024: Elevating Innovation, Creativity, and Equity. During the 2022-23 school year, Middletown adopted and implemented a new Equity policy to ensure that all actions and decisions reflected the values of celebrating and sustaining our pluralistic community. At Beman Middle School, the district's new state-of-the-art building that was named after an historically prominent, Black Middletown family, all students engage in curricular experiences to research and understand the history of the Beman family and their lasting impact. Middletown organizes initiatives to celebrate all backgrounds, including read-alouds to recognize Hispanic Heritage month and events to honor Black history such as learning experiences on the Amistad and a traveling Black History museum.

Essential to the district's efforts to reduce racial, ethnic and economic isolation is the Director of Diversity, Equity, and Inclusion (DEI). The director sits on cross-functional teams to ensure that programs and initiatives are considered through an equity lens. The director also supervises DEI Change Agents, a team of specially trained educators that lead equity-focused professional learning opportunities at the school level. At Middletown High School and Beman Middle School, students serve as Junior DEI Change Agents to lead equity circles and learning opportunities among their peers.

Finally, the Seal of Biliteracy has continued to scale up at Middletown High School, allowing multilingual students and those learning additional languages to be recognized as biliterate on their high school transcripts. This seal communicates the specialized knowledge of these students and recognizes language diversity as an asset for college and career. The Seal of Biliteracy is an example of the partnerships, collaboration, programs, and grants aggressively pursued by MPS in an effort to reduce racial, ethnic, and economic isolation.

Middletown School District

Equitable Allocation of Resources among District Schools

During the 2022-23 school year, a renewed School Improvement Plan process allowed the district to fully implement equity-based budgeting (EBB) and to gradually move toward school-based autonomy focusing on equity, transparency, and flexibility. EBB allows principals and content-area leaders to define the resources they need to drive student achievement based on student need in their individual school facility or department. The focus of educational resources shifts to the student and gives increased control to the principals. Weighted funding to align spending and individual student needs is being calculated for school-based budgeting.

During the 2022-23 school year, MPS revised and began the implementation of a 4-year state and federal grant plan that assesses facilities and educational needs. The revisions will ensure that all students attend schools that provide high-quality learning environments. Additionally, to monitor the equity-based budgeting described above, the district is developing a reporting mechanism to share to the Middletown Board of Education a quarterly report outlining individual school offerings and use of funds.
