Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Special Education Planning and Placement Team

Students requiring the highest level of support are referred to and monitored by the Planning and Placement Team. Specialized instruction is a multi-faceted approach including academic supports, occupational therapy, counseling/social work services and speech and language therapy. While academic services and some counseling are conducted by NBFA staff, speech and language, social work and occupational therapy are provided by Board of Education ("BOE") employees. Additionally, a BOE school psychologist is responsible for testing all students having initial or triennial evaluations completed. Progress monitoring is conducted on students based on their IEP goals. While each student has an Annual Review, the team meets regularly to review goals, objectives and interventions that are being provided. Parents and guardians play an important role in the team and are looked on as key collaborators in all intervention decisions. NBFA generates IEPs and all related documents through the BOE's IEP Direct site. All files are maintained on site at NBFA. During the 2022-23 academic year, 43 or 10% of NBFA's student body, received instruction under an IEP.

Truancy Prevention.

NBFA improved data training, processes, and protocols to improve attendance-taking, implementing absenteeism benchmarks and attendance interventions. NBFA developed a comprehensive, multi-tiered attendance framework to foster a culture of regular student attendance. During the 2022-23 year, an attendance committee was established with family engagement/attendance coordinator, school administrators, IT consultant, data specialist, teachers, parents, school counselor and students. The committee read and discussed research and practice literature (CSDE) and reviewed 2021-2022 attendance data to identify trends to inform the development of a comprehensive multi-tiered attendance. Together, the team identified key goals and developed a vision and strategy for parent involvement. The team also reviewed and updated Student and Parent Handbooks to ensure they are aligned with state law and NBFA's policy and procedures on attendance.

Parent Engagement.

The district's Family Engagement Coordinator played an integral role on the Attendance Committee, helping to educate families on the state's definitions of truancy and chronic absenteeism and working closely with administrators to implement individualized success plans for students and families displaying at-risk attendance patterns. The Family Engagement Coordinator also worked to build parent capacity by recruiting, cultivating, and supporting a group of parent leaders to serve on NBFA's School Governance Council (SGC) and as classroom parents to manage parent volunteer activities.

Efforts to Reduce Racial, Ethnic and Economic Isolation

New Beginnings Family Academy is a single district charter school that admits students by blind lottery. That means the school does not have very much control over the student population it enrolls. Nevertheless, NBFA seeks to attract and retain a diverse population through its bilingual outreach efforts. All communications (fliers, letters, automated calls, etc.) are sent out in dual languages.

During the 2022-23 year, NBFA participated in multiple community events and activities. This gave NBFA leaders and staff an opportunity to outreach directly to hundreds of families from diverse ethnic groups and backgrounds.

Perhaps the most effective strategy NBFA uses to reduce racial, ethnic and economic isolation is in its commitment to hiring a diverse team of administrators, teachers and other staff. More than 35% of NBFA's staff are Black and Spanish-speaking Latinos, assuring that families and their children see adults in the building who represent their background and culture.

Equitable Allocation of Resources among District Schools

New Beginnings Family Academy maintains tight fiscal control over costs and raises approximately 15% of its operating budget through private philanthropy to supplement the per pupil funding it receives from the state legislature. This formula has kept NBFA viable since its inception and will continue to do so until charter schools are fully funded by the state of Connecticut.
