Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The New Hartford Public Schools review and update the district's Strategic School Engagement Plans every year. Each school has a leadership team comprised of stakeholders across each school. The district's goals are aligned with each school's goal. Each School Improvement Plan is presented to the Board of Education and community yearly. District efforts will continue to focus on improving student achievement, school climate, and expanding technology learning opportunities for all students.

An integral part of our strategic plan and School Engagement/Improvement Plans are parent and community outreach efforts. The district solicited input from staff and parents relative to school climate and curriculum. The district will continue to attain staff, student and family feedback relative to the needs of the district. Additionally, the district has established virtual access to our Board of Education meetings.

The district's Special Education Department helped deliver a new literacy program to help students. Our Special Education Department will continue to implement a social-emotional screener in order to support all students and those specifically with elevated needs through SRBI groups. The use of the RULER curriculum both in working with regular and special education students highlights the district's commitment to improved social and emotional learning. The RULER curriculum supports universal language of SEL skills to support all learners. The Special Education Department presented its Special Education Program Plan again this past year that highlighted the goals of the department.

Districtwide and individual professional development of special education personnel has focused on training under the new statewide IEP system. Specific training of staff on support for dyslexia and programs to support those student needs has been supported throughout the school year.

The district partnered with the Connecticut Junior Republic to increase counseling opportunities to meet the social-emotional needs of our students. In a combined effort of New Hartford Public Schools and CJR, we were able to provide therapy and counseling to over twenty students, who would not have been able to be connected to therapists and counselors due to a myriad of restrictions. The district's Social Worker visited homes and worked with community organizations to address truancy. The district's student attendance improved this past school year because of our outreach initiatives.

Through district Professional Development, staff continue to utilize technology platforms to communicate with parents in a more robust and consistent manner. "Google Classroom" is the main learning platform for the district. Pupil Placement Team and parent meetings are held virtually for convenience and have produced increased participation and engagement.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The New Hartford Public Schools continued collaboration with surrounding districts, the Connecticut State Department of Education and regional school districts to reduce racial, ethnic and economic isolation. Some of the district's students attend interdistrict magnet schools. This past school year, 12 students attended interdistrict magnet schools. This number has remained consistent over the last several years.

One of the more exciting new programs in the district is our Advanced Manufacturing program. The New Hartford Public Schools partnered with Goodwin University. The program expanded to our 5th grade and now have our 5th and 6th graders working with the district's media specialist and a professor from Goodwin University to deliver this exciting STEAM based program. This partnership will culminate with a celebration at Goodwin University in the spring again that will bring our students together with students from across various ethnic and socio-economic backgrounds.

The district continues to plan activities that highlight the rich diversity in our state. The intermediate school will continue its time honored tradition of visiting the region's Native American Museum to study the numerous contributions of Native Americans to the State of Connecticut. The district will continue to plan educational activities that revolve around individuals from diverse backgrounds. Also, the district will continue to review our content area curricula to ensure an eclectic selection of reading materials are available for students.

Equitable Allocation of Resources among District Schools

The New Hartford Public Schools work diligently to ensure that every student need is met. The district's administrative team meet regularly to develop a responsible budget that equitably devotes resources to every school. The district's 5 year Strategic Plan and School Engagement/Improvement Plans highlight the priorities of the district. Each school has instituted a School Improvement Committee that identifies resources that are allocated in an equitable manner. The district continued to invest in academic programs that meet the needs of every learner. New literacy and math programs allowed for differentiated instruction to occur throughout the district. The New Hartford Public Schools will continue to invest in technology based learning opportunities for every student. The administrative staff also worked cohesively with the district's PTO.
