Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

New London School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The district implemented a new process and improved systems that define curriculum review and writing cycles that include applying a racial equity lens, a student engagement lens, and an access lens to ensure that what is being taught is responsive to our student population and the standards required of each grade level. Gains were made in launching new courses that focused on students' cultures and language learning needs.

Chronic absenteeism and truancy continue to be a focus with the district striving to ensure that students are in school every day. The district built relationships with families and connected them to services throughout the district and community. Additionally, the district conducted nearly 700 home visits, communicating to families the district's care and concern for them and our students. Attendance in school every day continues to be a district priority.

Parent Engagement is a critical focus to empower families by improving communication and accessibility. NLPS promotes authentic partnerships that includes regular communication from the Superintendent's office and building based bi-weekly informational newsletters as well as weekly social media posts from both the district and individual school levels. In addition to written and social media communications, we continued with home visits, parents as representatives on district and BOE committees, virtual coffee hours, outside community events such as socials, block parties, ice cream in the park, etc. The district actively seeks the parents' perspective using surveys and focus groups. These partnerships have resulted in improved programming and a stronger sense of community. Paid Parent Ambassadors, located at each school, are now a part of our NLPS team. A brand new B-8 community resource center was purchased, programming was designed and implemented. NLPS has greatly expanded its PreK program.

NLPS also expanded its After-School Programming in its efforts to support families and give our students rich learning experiences outside of the traditional classroom. This has resulted in expanded partnerships with service providers who offer unique learning opportunities.

NLPS launched a new district website and a new innovative app, whereby all stakeholders can find the latest news and updates in real time as well as have access to policies, handbooks, resources, contacts, text messages, and translation services.

NLPS established new opportunities for voice and activism for students, families, and staff to serve on advisory, district sub-committee, and BOE groups.

Learning implementation plans were developed from current IEPs (Individual Educational Plans) to provide continuous academic instruction.

NLPS was a Pilot district for the new SEDS implementation. Supervisors were trained as trainers to provide IEP (Individual Educational Plans) quality training to all teachers in the district. In addition, the district will be provided with multiple layers of support and instruction around the implementation of the new state-wide IEP management system.

The district recognized the need for a standards-based curriculum to support students in the self-contained neurodiverse classrooms. Curriculums were vetted and chosen.

To learn more about the comprehensive NLPS District Improvement plan, and its school year 2021-2022 results, visit www.newlondon.org.

Efforts to Reduce Racial, Ethnic and Economic Isolation

NLPS continues to make progress on the roll out of becoming an all-magnet school district. This plan, designed to create themed programs of study that are highly engaging, embodies the district's efforts to reduce racial, ethnic, and economic isolation through purposeful strategies that center on transforming NLPS to a high-performing, regional public system. The unique learning opportunities offered through specialized academic programs are designed to provide choice and access based on preference and interest, thus reducing isolation. NLPS pathways focus on STEM, Arts, and International Education (soon to be International Baccalaureate).

Work designed to increase student awareness of the diversity of individuals and of other cultures centers on "Courageous Conversations About Race," authored by Glenn Singleton. Staff continue to be engaged in this work, monthly, throughout the year. The district introduced new courses, entitled "Ethnic Studies" and "Latin X Language and Culture," to respond to the request of students regarding the need for culturally engaging courses at the high school level. The district's District Equity Leadership Team (DELT) and a DELTa (advisory team) advance the work of cultural competencies and culture awareness among all community members, i.e., students, staff, families, business, etc. An Equity Plan guides the work on race, implicit bias, and culture to ensure that all voices are honored as we work to understand one another more deeply and improve the outcomes for our students. A variety of clubs and extracurricular activities are sponsored for students at the secondary level: Multicultural Club, Key Club, Athletic Leadership Group, Dance Team, Latinos in Action, etc. Additional opportunities for student engagement, that results in reducing isolation and engaging students in meaningful learning are made available through partners such as More Than Words and the New London Parks and Rec. The district's HR department focuses on the recruitment, engagement, and retention of highly qualified, diverse candidates. Intentional strategies are being implemented to reduce racial isolation of staff. A committee of Staff Diversity and Excellence is currently active.

New London School District

Equitable Allocation of Resources among District Schools

New London Public Schools implemented, as part of its three-year Strategic Plan, a new budgeting model. The new model called for centralization of the budget process which enabled the district to more efficiently and equitably allocate funds to all schools. It also improved the district's ability to monitor spending and ensure that district goals were driving expenditures. This led to greater coherence district-wide and resulted in efficiencies through bulk purchasing of common supplies.

Grant funds are also viewed through the district's equity lens to ensure that all school are equipped with the resources and supplies that they need. Staffing allocations are made based on enrollments, program, and course offerings. All grants are overseen by the Ex. Director of Business and Finance and all schools are included, to the greatest extent possible, based on the parameters of each grant, in any funds awarded to the district.

The district continually seeks and applies for grants to bring in more and more supports and opportunities for students and staff. NLPS was successfully awarded the CT SDE's CN grant for BDJMS and for NLHS as well as additional grants for PreK and SEL.
