Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

North Branford School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The existing strategic plan continues to guide our actions in the district. There are plans to engage in updating and refining this plan in the next two years. The current plan's 3 goals focus on student achievement, school climate, and facilities. Yearly, leadership analyzes performance data and interprets the results to prioritize and adjust improvement plans for each school and program for the upcoming year. This planning promotes organizational purpose, collaboration and shared commitment to goals. During the 22-23 school year the district created the "NBPS District Instructional Vision". This guiding document focuses our PreK-12 instructional efforts, professional learning, and commitment to continuous improvement as connected to the Vision of the Graduate. As a district we continue to recognize that parents and guardians play a critical role in educating and supporting their children. During the 22-23 school year the district has created "Parent-Guardian Think Tanks" that discuss, question, and refine teaching and learning in the district (the group meets monthly and is made up of K-12 representatives). Parent-guardian input is solicited through Forums, PTOs, Booster Clubs, and ongoing surveying. Additionally parents-guardians attend Open House, conferences, workshops, and at-risk meetings. NBPS commits to ongoing home communication regarding school events, classroom news, available services, and at home learning supports through PowerSchool, Google Classroom, Bloomz, SeeSaw, webpages, newsletters, and e-blasts). During the 22-23 school year parents-guardians were offered ongoing grade level-specific trainings (virtual and in person) by our instructional coaches relative to curriculum, instruction, and home support in the areas mathematics and language arts. Feedback is provided (progress reports, report cards, at-risk meetings, i-Ready reports) to ensure reported student data is individualized and accurately describes each student's academic and social progress. NBPS has enhanced Spec Ed and Reg Ed programs and services by training for and implementing an integrated preschool model for 4 classes taught by integrated (special education certified) preschool teachers for the 23-24 school year. Additionally, special education and related staff engaged in ongoing training related to IEP development, the PPT process, and providing ongoing academic and behavioral support for students in need. Under the direction of the Special Services Director building staff are engaging in case load analysis to ensure better distribution of academic and behavioral support for students, which includes the development of an ICM model. The NBBOE's Attendance Policy requires monitoring of attendance and collaboration with families to ensure that students attend school regularly and consistently. The policy is disseminated to all families through Student Handbooks. Student attendance is monitored and addressed by school personnel. If a child demonstrates a pattern of absences, families attend an in-school collaborative meeting to find ways to improve the child's attendance including counseling, behavior plans, PPT referrals, and/or referrals to outside agencies. At all levels, PBIS and positive school climate strategies are used to improve attendance. When necessary, home visits, attendance hearings, referrals to DCF and other measures are completed.

Efforts to Reduce Racial, Ethnic and Economic Isolation

NBPS remains committed to reducing racial, ethnic and economic isolation. Curricula, inter-district programs (ACES), and extracurricular activities and clubs support students in appreciating diversity and inclusion. Staff incorporate activities that celebrate diversity in curricula and instruction and at school-sponsored events in addition to regularly expanding texts and resources where diverse cultures and experiences are represented. NBPS support acceptance, inclusion and citizenship through PBIS, Second Step, and related age-appropriate SEL opportunities. PBIS remains firmly in throughout the district, ensuring students and staff are working together to build respectful, positive school climates that foster student connectedness and achievement. Teachers engage with ongoing training in Responsive Classroom and Restorative Practices. Additionally, all schools have Equity or DEI teams that support ongoing learning and support for reducing racial, ethnic, and economic isolation. All schools have student leadership programs that focus on acceptance, reducing bullying and creating allies among the students and school communities. NB also has monthly school climate assemblies that promote multicultural awareness and build a sense of community- such as art exhibits depicting different cultures and celebrations of Black History, Native Americans, and Hispanic Heritage. Students participate in programs (Rachel's Challenge, ADL's Names Can Really Hurt Us) and advisory meetings designed to build community. Students have opportunities to participate in clubs (Diversity, Interact, GSA, Helping Hands, Student Union) that support creating community. Students are strongly encouraged to participate in community service PreK-12. Staff and students work together annually to fundraise and collect food, clothing and necessities to assist economically disadvantaged individuals and families locally, nationally, and globally. The Community Roundup, an annual event stocking the local food bank, involves the entire school community. The district embraces the Open Choice program as a means to enhance diversity and community while reducing racial, ethnic and economic isolation. Several students participate in choice programs including the ECA, Sound School, and NH Magnet Schools.

Equitable Allocation of Resources among District Schools

The NB Board of Education strives to allocate resources equitably throughout its schools. Budget development begins at the building and program levels using guidelines established by the BOE. An allocation formula based on per pupil need and projected enrollment at each school level provides for a fair and equitable distribution of resources. The Administrative Council meets to discuss budget priorities. The proposed budget is developed by administrators with input from teachers, department leaders and directors. This collaborative process promotes effective use of funds, ensuring expenditure choices meet the needs of all NB students. School-based budgets are reviewed to ensure alignment to the district's mission, strategic plan, statutory requirements, BOE policies, and collective bargaining agreements. Yearly, administrators conduct audits of the previous year's expenditures, complete comparative analyses, develop summaries of the effectiveness of funds, and make recommendations for the future budget-allocation process. The administrative team works with a district perspective to ensure budgets, grants, allocations and resources support students with the greatest needs.
