Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Norwich Public Schools (NPS) is home to seven elementary schools, two middle schools, two preschools, and two family resource centers. During the 2022-2023 school year, the district continued several district improvement efforts including improvement of academic programs, special education programs, truancy prevention, and parental outreach efforts. Improving Academic Programs: During the 2022-2023 school year, continued collaboration and consultation between Norwich Public Schools, Non-Public school staff and families of those students enrolled in local Non-Public Schools who required special education services and provided programming and materials as necessary. Improved the academic achievement of special education students in the area of literacy development by improved literacy instructional opportunities provided by general education teachers, special educators, and paraeducators. The district invested in Reading Specialists to provide explicit instruction utilizing research-based interventions in reading. In addition, Academic Reading Specialists continued to provide direct instruction and monitor student progress using research-based interventions in reading. The district is invested in better supports and streamlined practices for English Language Learners. Our TESOL's delivered lessons in core classes as well as small groups that allowed EL learners to acquire academic knowledge. EL coaching occurred focusing on collaboration and co-teaching to support in implementing SIOP strategies across Tier 1 instruction. In addition, the district focused on strengthening the comprehensive core classroom (Tier 1) mathematics instructional program by providing training for administrators and teachers in the continued implementation of core curriculum and professional development through Eureka. Many efforts were made to ensure that students continued to attend school throughout the year. Norwich participated in the LEAP Program facilitating home visits and used our transportation agreement to target chronic students. School Resource Officers connected with families of chronically absent students and the continued effort by classroom teachers to communicate with families prompted wellness checks if contact was not established with the student or family. Throughout the year, the district held monthly district-level and bi-weekly school-based attendance team meetings which included representatives from each school. These meetings included a review of bi-weekly chronic absenteeism data as a review of the effectiveness of tier I and II attendance interventions and facilitated building-wide attendance campaigns, incentives, small group interventions, and individual outreach to students and families inclusive of home visits, connections with local agencies as needed, and individual goal setting. Services were provided that families viewed as beneficial and relevant such as services ESL, GED, HS Diploma, technology supports, other educational supports for adults, and language transition services. Regular scheduled notices, memos, phone calls, newsletters, and other communications (Class Dojo, Messenger, and Kinvo) were sent home. Home visits at transition points were facilitated with parents. Increased the opportunity to communicate verbally with families using Language Line as a translation service in 240 languages.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Norwich Public Schools is home to two intra-district magnet elementary schools: one which focuses on environmental education and the other focuses on technology and the arts. In conjunction with the elementary offerings, our two magnet middle schools provide opportunities for students in the areas of STEAM and Global Studies. Student recruitment efforts at all magnet schools are intended to reduce racial, ethnic and socio-economic isolation. Within the community of Norwich, parents have school choices for their children. Besides the four intra-district magnet schools, parents can opt to send their child to magnet schools in the city of New London or to one of the LEARN-sponsored magnet schools in the region. In conjunction with the magnet school offerings, a high leverage Equity Policy has established a framework for racial equity for Norwich Public School students, to ensure the elimination of racial bias, particularly institutional racism, and any prejudice or unlawful discrimination that may affect student achievement and learning experiences, and to promote learning and working environments that welcome, respect, and value equity and diversity. The Equity Director oversees the equity plan to eliminate barriers to achieving race equity, and support opportunities and bridges to race equity success. Norwich Public Schools participated in The Connecticut Teacher Residency Program and the RELAY Program as an alternate route to elementary and secondary certification programs focused on increasing educators of color in the Norwich Public Schools. Our Teacher in Residence in the teacher prep program through CT-TRP successfully completed their mentor year and has been assigned to their residency classroom for the 23-24 school year, as well as two RELAY candidates who will be placed in classrooms upon completion of their certification. For the 23-24 School year we have 3 CT-TRP candidates who will begin the first year of their residency and four RELAY candidates. Norwich Public Schools attended recruitment fairs such as the RESC Alliance Recruitment Fair, and held our very own in-district job fair. In addition, the district has a focus on retention and has included intermittent surveys and interviews regarding hiring practices and climate.

Equitable Allocation of Resources among District Schools

The district ensures instructional supply budgets are distributed on a per-pupil basis. Student needs are met through a variety of state, federal, and local funding sources to enhance the general fund offerings. Norwich Public Schools relies heavily on state and federal grants to support initiatives and District Improvement Goals. The additional funding sources often require an analysis of student needs including free and reduced lunch status, or the number of ELs and/or special education students. School enrollment and student needs are both considered to ensure an equitable distribution of funds.
