Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Old Saybrook School District

Narratives

School District Improvement Plans and Parental Outreach Activities

This is year three of our five-year strategic plan for Old Saybrook Public Schools. The plan was developed with families, students, community members, and staff. These groups identified equity, high-quality instruction, and student and staff well-being as their top priorities for the district. Evidence of progress toward these goals is shared on our district website, and through regular newsletters and videos. Families provide feedback about the impact of these action steps through biannual surveys and family forums.

Communication continued to be at the forefront of the organization for 2022-2023. Old Saybrook's Superintendent of Schools continued to host regular family meetings to ensure access to all who chose to attend. Some families continued to attend planning and placement team meetings online while others chose to attend in person. Parent-teacher conferences were offered on both platforms, as well. When health conditions dictated, the district live-streamed performances and events, and offered in-person opportunities whenever possible.

Based on feedback from families, tours of the schools and in-person meetings with teachers were offered on several occasions. The district also sought parent involvement in decision-making, regularly soliciting feedback about progress toward strategic goals, input about the use of grant funds, and including parents to provide feedback on how we should approach the High Quality Instruction goal of the strategic plan in year three.

Efforts to improve special education services for students with disabilities included ongoing staff training about the new CT-SEDS, dyslexia, and the addition of social-emotional learning programming across grade levels. In 2021-2022, OSPS enhanced the alternative high school program for students with significant emotional needs by adding a full-time counselor to support students and families. OSPS also partnered with neighboring districts to broaden the scope of services to students in our 18-22 transition program.

Attendance was reviewed weekly and followed by individual outreach from a team of teachers, social workers, and counselors. Attendance Board meetings and support from outside agencies were last-resort measures employed only after direct, one-on-one, personalized supports were provided.

Families continued to be champions of students' learning by staying connected through the district's learning management systems and digital gradebook. Students spent more time in the community, too, working on projects with the Historical Society, the Chamber of Commerce, the Garden Club, and many local businesses. They conducted environmental research and an archaeological dig. They participated in the Witness Stone project and presented to the local history to the community. Each of these events connected students and community members, involving everyone in the education of Old Saybrook's students.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Equity is at the heart of Old Saybrook Public Schools' 2021-2026 Strategic Plan. We strive to ensure that all students will be challenged and respected, and represented throughout the district. To achieve this, the Equity Guiding Coalition was established in the fall of 2021. This group conducted a needs assessment and engaged every educator in anti-bias training.

Further, educators across the district participated in a series of workshops detailing specific strategies for supporting students learning English in every classroom. A quarterly newsletter, Sabias, shared the achievements of multilingual students with all families. Quienes Somos, published monthly, reminded teachers of strategies to connect with multilingual learners and their families.

Interdistrict programs included students in the 18-22 year-old transition program who were part of a regional effort to broaden opportunities and create connections. Efforts to establish a regional academic program to share access to specialized courses, like German and Mandarin, continues to be a point of discussion in partnership with our local RESC.

In Old Saybrook, students are proud of the diversity of our community. This year, the Equity Guiding Coalition has transformed to the Equity Action Coalition. This move was made to include students and parents in the efforts made to increase equitable outcomes for all students throughout the district.

Equitable Allocation of Resources among District Schools

Old Saybrook Public Schools' budget is driven by the priorities of our strategic plan, which was written with input from the community, families, and educators. With only one school at each level, there is little concern that one school will be funded differently than another. In fact, the size of our district allows for a highly collaborative and transparent budget-building process. Starting with a zero-base, the budget is built by a team of teachers and administrators and includes only that which is necessary for the following year. This team approach and focus on the priorities of the strategic plan ensure equitable access to a well-rounded education for all Old Saybrook students.
