Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Regional School District 06

Narratives

School District Improvement Plans and Parental Outreach Activities

Regional School District 6 continues to show strong academic growth and solid student performance on both local and state assessments. By implementing a district-wide approach to data-driven instruction, RSD6 has made significant progress toward improving student outcomes for all students and has a sustained focus on accelerating academic growth for students with disabilities.

With the impact of the COVID-19 pandemic to disrupted education, RSD6 has made deliberate and intentional efforts to support the academic and social emotional needs of students. This includes increasing access to mental health services for both students and staff through a community partnership with a local counseling and mental health referral service. RSD6 continues to expand services for students with disabilities to include specialized transportation, counseling, and access to high quality programming and specialized instruction. Specifically, RSD6 provides reading intervention with Orton-Gillingham trained and licensed instructors. Special educators throughout the district continue to receive professional development on methodologies and instructional strategies for students with math disabilities such as dyscalculia.

RSD6 recognizes that attendance is a critical factor in a student's academic and social-emotional success. Throughout the COVID-19 pandemic, addressing attendance has been a major priority. It is the goal of RSD6 to ensure that all students have access to instruction regardless of the challenges that this pandemic causes with student absences due to illness, quarantines, and other pandemic-related issues. Weekly attendance meetings are conducted to evaluate the need for intervention. Strategies to address attendance issues include outreach to parents and caregivers, referrals to community resources, and assessment of the social, emotional, physical and learning needs. Additionally, RSD6 continues to refer students to Special Education, 504 and/or Student Intervention Team. Staff conduct home visits, coordinate with the physician and other community providers, and provide regular check in's with a mental health team staff member. RSD6 also utilizes a school avoidance program to offer credit recovery services, specialized transportation, alternative hours, home/school collaboration, home visits, parent education, a stand-alone classroom with its own entrance, bathrooms, access to counseling services, lunch space, and staffing.

Engaging families in student learning is of high importance throughout the school district. School administrators regularly offer parent advisory meetings and create multiple opportunities for parents to volunteer in the buildings and in classrooms. Additionally, parents and staff are encouraged to serve on various committees (such as safety, climate, and school improvement).

The district academic office has made deliberate efforts to increase family engagement in learning for the 2022-2023 school year. This includes the publication of parent-friendly curriculum guides by grade level and the launch of a comprehensive summer learning website to provide parents with age-appropriate activities and resources. Additionally, the district hosted several STEM themed family engagement nights where students and their parents were able to participate in robotics activities together.

Efforts to Reduce Racial, Ethnic and Economic Isolation

RSD6 continues to expand learning opportunities that reduce racial, ethnic, and economic isolation and design programming to meet the needs of all learners. Over 100 elementary and middle school students participate in a full day summer program that runs for four weeks in the month of July. Students in this program engage in academic lessons with certified teachers as well as participate in several rotations centered around social-emotional learning led by a school social worker and school psychologist. Enrichment activities include robotics, art, team sports, music, physical activity, agriculture science, and culinary arts. This program employs over 15 high school students as youth counselors to provide them with relevant work experience while also enriching the lives of the younger students.

The Wamogo freshman orientation program known as "Froshfest" was originally designed to welcome out-of-district students, it has evolved into a celebration of differences and an exercise in tolerance and acceptance. This inclusive program utilizes activities and curriculum specific to celebrating diversity. Additionally, at Wamogo, the Wamogo Pride Coalition is a student run club inclusive of diversity and culture at the middle and high school level.

To further district efforts to reduce racial, ethnic, and economic isolation, a team of educators developed a strategic long-term plan. This plan outlines goals to ensure school protocols and practices reflect equity, diversity and inclusion, provide professional development for educators on culturally responsive instruction, implement a curriculum that is diverse in representation, and creates opportunities for all stakeholders to partner with the school system. As part of this initiative, school and community-based groups hold discussions on culturally responsive leadership with efforts to further enhance at the school level awareness and understanding of various cultures.

Residents in Region 6 schools have school choice to the RSCO area magnet schools, Waterbury Magnet Schools and State Vocational Technical Schools.

Equitable Allocation of Resources among District Schools

Region 6 equitably allocates resources throughout all the schools in the district. Policies and practices ensure that all students regardless of financial need have equitable access to all educational opportunities. This includes providing financial support to offset AP exam fees, tuition for online courses, and access to field trips.

The allocation of resources within the district is reviewed annually during the budget development process. Programs, supplies, and services are provided to students in each school using a per pupil approach.
