Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

School District Improvement Plans and Parental Outreach Activities

Ensuring our families are well informed and are a part of our school community is very important to us and to our students.

The District's recent School Improvement Plan has highlighted efforts and measurable goals to assure families feel connected and have a sense of belonging to the school community. Through the use of actionable data from the safe schools climate survey, outreach activities for rising 9th grade students and families, special education seminars, and efforts to support and sustain a positive school climate.

Parents have access to their child's academic record through PowerSchool, as well as teachers' webpages and Google classrooms. Student attendance is carefully monitored in accordance with the State Board of Education guidelines and efforts are embedded in the aforementioned School Improvement Plan to reduce chronic absenteeism. When required, meetings are conducted with the student, parent, counselor, school social worker, and an administrator to devise a plan of action to address attendance concerns.

Joel Barlow High School has an active network of parent involved organizations such as the PTSA and booster clubs supporting our sports teams and theater program. Additionally, the Region 9 administration has extended outreach to parent groups from the two sending districts, Easton and Redding to talk about students' transition to high school.

Region 9 provides students with identified disabilities direct support through their individual education plans which allow them to develop and implement appropriate transition plans for their post-secondary education and career goals. Our in-district Life Skills program continues to provide direct individual instruction in functional academics, communication, daily living skills, and social skills. Students have the opportunity to develop their vocational skills through Work Study in the school building or in the community. Our Unified Sports Program returned with soccer and basketball teams. Best Buddies continues to welcome students during the activity period. Social and emotional interventions support some students through the Bridge classroom with dedicated staff. This year we offered a variety of parent forums (e.g. CT SEDS Parent Informational, Transition Planning for Life After High School, Long-Range Planning for Your Child with Special Needs).

Our Mental Health First Aid trainer has provided opportunities for students, parents, and staff to receive this training. Our counseling department hosts grade-level coffees for parents. Topics include transitioning to high school and the college admissions process. Counselors meet individually with every 11th grader and their families for junior college planning conferences. All students, including incoming 9th graders, meet with their counselors as part of the scheduling process. Our Open House, Program of Studies night, seasonal Sports Informational evenings, Falcon Fest community event, and Barlow Palooza showcase are additional opportunities for parents to learn about the school and partner with us in supporting all students. The school also hosts several concerts, music performances, and theater productions. Next year, parents will be invited to participate in a series of 4 workshops focusing on transition planning, linkages to support agencies, social emotional well-being, and planning for adult life.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Regional School District #9, Joel Barlow High School, works to reduce ethnic, racial, and economic isolation through a variety of programs. As of October 1, 2022, six students from the towns of Easton and Redding attend the Fairchild Wheeler Interdistrict Magnet School in Bridgeport. Six students, currently enrolled at Barlow, attend the Regional Center for the Arts program as part of their academic day. Three students attend the Center for Global Studies in Norwalk, five attend the Trumbull Agriscience School, two students at Abbott Tech in Danbury, and six students attend the Academy of Information Technology and Engineering in Stamford. Cooperative Educational Services facilitates the Open Choice Program. Students living in Bridgeport apply and are chosen from a lottery to attend Easton schools and Barlow through the Project Choice program. This year seven students participated in the program. Our faculty, working through the curriculum, and extracurricular activities, provides many opportunities for our students to interact with students throughout the region, the state, and beyond. A significant number of students participate in debate tournaments, interacting with students from Boston, Danbury, Fairfield, New Haven, Stamford and other diverse communities. Our tri-district administrative council have been working closely with a consultant from the Great Schools Partnership on Restorative Practices, cultural awareness, and understanding the unintentional harms of exclusion. The consultant has presented to the staff at Professional Development days and collaborated with our student leaders.

Equitable Allocation of Resources among District Schools

Allocation of resources is determined through an annual process of developing each school's operating budget in the district. Budgetary decisions are guided by the district's strategic commitment to academic excellence, character education, personalized learning and community involvement.

Teachers provide input to their principals who work collaboratively with the Director of Finance that reflects each school's mission. The budget is proposed publicly at meetings conducted by the Board of Education, where members of the public are invited to provide input. Allocation of resources is discussed at monthly Board of Education meetings. Expenditures are balanced to sustain all academic and non-academic programs and determined in a manner that ensures full participation by members of the staff and full transparency to the community.
