Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Regional School District 10

Narratives

School District Improvement Plans and Parental Outreach Activities

Regional School District #10 strives towards high levels of achievement and engagement from all our students. We know that this starts with a strong home school connection built upon a shared understanding of what high quality learning means for all students and a commitment to ongoing, partnership and communication. This experience starts with our preschool students in both elementary schools and extends to family college and career events at LSM. Every planned activity in RSD10, i.e., transition-year orientations at Kinder, Grade 5 and Grade 9, open houses, parent conferences, family engagement workshops, weekly principal newsletters, user-friendly school and district websites, and our community newsletter called The School Bell is viewed as an opportunity to partner with and educate parents in best practices to support their children. We have thriving PTOs at each of our schools, a parent-led Booster Club at LSM and their partnership with building leadership and teachers is an essential through-line of communication.

Our literacy and numeracy curriculum, K æ 8 in particular, have authentic parent components that we incorporate into our parent relationships in support of academics and learning opportunities that extend beyond the classroom. Events such as STEM showcases, Invention Convention, visual arts fairs, author visits, and musical performances are held to build community and engage families in multiple expressions of and opportunities for student learning. At the end of each school year, we update our Summer and eLearning resources page on our district website for families with vetted, diverse, academic and socially engaging content for families to tap into throughout the summer. This includes, but is not limited to, summer reading and Math activities, museum passes, podcasts, mindfulness exercises, whole-body fitness and foreign language activities that extend learning from the academic school year.

Regional School District 10 continues to engage in a continuous improvement process at the district, school and classroom level that prioritizes teaching and learning goals based on multiple data sets beyond student performance data with an equal focus on strength, areas of need, and student growth. We are also very much in a continuous process of ensuring our Vision of the Graduate is alive and well and is a driver of our learning environment. The continuous improvement plans at each school are outcome driven with collaborative decisions around professional learning, resource allocation, curriculum revisions, use of Professional Learning Community time, standards review, data analysis and areas of instructional focus all as integrated parts of our school and district improvement.

Efforts to Reduce Racial, Ethnic and Economic Isolation

RSD10 fosters both social and academic opportunities for students and staff through meaningful exploration of diverse cultural, linguistic, racial, ethnic, and socio-economic identities by offering windows and mirrors into a global society. Our intentional work is guided by a board-approved DEI Statement. We continue to deepen SEL practices at every grade-level and anchor our learning in the CASEL 5 framework for social and emotional well-being. Each school has both SEL and Equity Teams who focus on the social and emotional health of students and staff. Our long-standing partnership with Teachers College includes curricular and instructional lessons that include Culturally Responsive Read-Alouds, Identity-Mapping, diverse classroom libraries, and meaningful writing prompts that support the identities of all students. Our Professional Learning Choice Board for faculty and staff includes extensive learning opportunities in the areas Emotional Wellness and Equity. Our district's 20-21 Equity Audit was a springboard for adult learning around the creation of equitable classrooms for all students and for ongoing efforts to ensure positive, diverse representation in our curriculum K æ 12. Each school's Equity Team is part of the leadership decision-making around school climate and efforts to increase students' feelings of belonging. The district's music, visual arts, social studies and world language programs are also essential access points for students to gain an awareness and appreciation of the diversity of the world. Our World Language program begins in grade 3, while music and arts begin in Kindergarten. Our library media specialists are deeply invested in providing students with reading opportunities that engage all students with varied interests and expansive backgrounds. We have expanded our physical libraries to include SORA æ an electronic library for K æ 12 students that can be accessed from any device at anytime, anywhere. There is intentional book acquisition with specific efforts to provide titles and authors that are diverse and support exploration of differences and the familiar. Our DEI plan includes a K - 12 Student Capacity Building component with intentional action steps that expand opportunities for student growth, empathy, and awareness.

Equitable Allocation of Resources among District Schools

RSD 10 works to ensure an equitable distribution of resources among its schools through a budget process that involves the Board of Education, administration, staff, parents of school children, and our two communities as a whole. Site-based administrators identify priorities and discuss in forums with all staff. A detailed budget document and public budget workshops provide staff and taxpayers with a clear and transparent view of the budget. Schools receive guidance on overall prospective spending levels and district goals but are allowed to allocate resources as they see best at their individual sites. Financial resources are allocated based on enrollment and program requirements at each site. Budget submissions from the schools reflect both contractual and legal requirements, as well as program needs and goals that support student growth. The Superintendent of Schools presents the budget to the Board and schedules a series of public meetings to encourage participation in the budget process. These meetings are used to ensure the budget accommodates all programs fairly. Region 10 works in concert with all stakeholders to plan accordingly for future growth and expected needs.
