Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Regional School District 12

Narratives

School District Improvement Plans and Parental Outreach Activities

Region 12 is committed to engaging all families in the educational process. Staff members are encouraged and supported to facilitate ongoing communication with families throughout the school year. School websites share information about school events, procedures, health and wellness information, and classroom and district newsletters. The PTOs in each building are active and provide support for educational enrichment activities and field trips. Parent-teacher conferences are offered twice yearly to ensure communication about student growth. The counseling department hosts a variety of informational sessions to engage families in important topics like internet safety, college planning, and financial aid options. The district has also partnered with outside providers to provide training for families on pertinent topics. Parents have access to technology that allows them to stay involved in their student's academic life. PowerSchool, Google Classroom and Naviance are just a few of the tools parents can use to understand their student's progress. Staff also offer training to parents related to supporting their student's at home.

Chronic absenteeism and truancy are a priority in Region 12. In each school building, there is a team that monitors chronic absenteeism and truancy. In each instance, families are contacted and meetings are arranged to discuss the circumstances of each situation. If the student is from one of our sending towns, communication is initiated so the Local Education Association (sending town) is aware and is a partner in the process. Individualized plans are developed in concert with the parents, students and school to best meet individual needs. Additional support like regular team meetings, school counseling, referrals to outside resources, classroom supports, and a case manager to monitor and support the student are just a few of the options that could be recommended and implemented. If necessary, a referral to special education will be made and a planning and placement team (PPT) will convene to determine if there is a need for special education supports.

Our Department of Pupil Personnel Services (PPS) continues to work in proactive ways to improve the special education and 504 programming for students and families. As always, staff connect with parents at the start of the year to build a partnership that will increase student achievement and well being. Special education team members also share information with the general education teachers to strategize opportunities for student success. Teams meet multiple times per year to review student progress and discuss possible adjustments to programming. As a Connecticut Agriscience Program, Region 12 works with multiple school districts to ensure excellent programming for all enrolled students. From the 8th grade transition PPT to the senior year exit PPT, we partner with students, families and school districts to maximize every student's opportunity for success.

Efforts to Reduce Racial, Ethnic and Economic Isolation

At the elementary level, we continue to integrate learning opportunities to deepen the awareness of diversity in our world. Through our Cultures Around the World study, students explored the traditions and culture of Mexico with texts, videos, crafts, dance and traditional games. Experiences included visits from a Mexican dancer and singer and author, Duncan Tonatiuh, who wrote *Separate is Never Equal*. A school-wide literature study was another opportunity for students to understand diversity and appreciate differences in oneself and others. Books such as *This Is How We Do It* by Matt Lamothe; *Daily Bread: What Kids Eat Around the World* by Greg Segal; *Respect: Everyone Matters: A First Look at Respect for Others* By Pat Thomas; and, *Lailah's Lunchbox: A Ramadan Story* by Reem Faruqi were used to guide discussions. In addition, we studied black heritage, tradition, and achievements. A featured primary book of the month was *Because Claudette* by Tracy Baptiste. Furthermore, we celebrated cultures based on the ethnic diversities of students we have in our schools. We researched customs in Ecuador. We also had an afterschool enrichment opportunity for all students to participate in, where community members came into the school, taught students about their ethnic/cultural backgrounds, created a meal together and taught students about the foods that pertain to their cultures. At the middle level, a holocaust survivor gave a two hour program on the roots of intolerance to our middle school. Students participated in a Flamenco music and dance field trip and trip to a Mexican restaurant. The 8th graders spend a day at Holiday Hill with multiracial, multiethnic set of students from other schools. The middle and high school students have also been introduced to the Link Crew model of peer to peer connection, bridging gaps in culture, identity or prior experience. All students viewed a presentation addressing slurs and learned about labels. For Black History Month students participated in a virtual tour of the Museum of African American History and Culture. This spring our World Language students had the opportunity to visit Costa Rica and live with host families. Our students also run charitable drives and develop and help people in need at homeless shelters in Danbury

Equitable Allocation of Resources among District Schools

Region 12 builds an annual budget offering the highest quality education in a fiscally responsible manner. The budget process includes justifying budgetary requests based on inclusive programs and initiatives that equitably serve all learners' needs. Personnel comprises the majority of the budget, and administration scrutinizes this area of the budget to ensure personnel is employed equitably to support the education of all learners with a focus on small class sizes, rigorous curriculum, and individualized learning to meet student needs. Special education costs are driven by the needs expressed in individualized education plans. The 23-24 budget included a 5.26% increase over the prior year to maintain our academic programs and add new resources to meet the changing needs of our students. Region 12 strives to leverage efficiency to preserve the quality of our educational programs while remaining responsive to changing economic conditions. We welcome non-resident students through agriscience and tuition-in opportunities. These programs have proven mutually beneficial as students from neighboring towns strengthen our schools through diversity that enhances and enriches our schools.
