Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Regional School District 15

Narratives

School District Improvement Plans and Parental Outreach Activities

The Superintendent in collaboration with the Board of Education, has developed and continued to implement four theories of action. The theories are the focus for the work at the district, department, school, and classroom levels, are the basis for the improvement efforts and professional learning for staff, and are the foundation for curriculum revision and development. These theories help the guide the work to ensure success for all students.

Region 15 has recently updated its SRBI (RTI) process to include specific criteria for the support, strengthening Tier 1 in the classroom, and increased progress monitoring. Support is increased in increments for students who require it. This process assures student success without unneeded special education identification. For those students who require special education services, the Region provides a full range of programs. A focus of the programs at every level has been the integration whenever possible, of special education students into the mainstream programs.

The Region has two full time social workers, three Board Certified Behavioral Analysts, eight school psychologists, and fourteen school counselors to assist in social emotional wellness and in school attendance. A district team identifies students who are endanger of being truant and each month provide schools and families with a letter to inform them. Additionally, these positions are another resource and support for students and families.

Parents are actively involved and included in the education of their students. Examples include attending open house, parent-teacher conferences, and parent workshops provided throughout the school year. Examples of workshops provided to all parents include topics around social emotional learning and trauma as well as providing information to parents of students with disabilities regarding transitions between school buildings to college and beyond.

School and Region news is distributed in a variety of ways. These ways include electronically through School Messenger, school-based newsletters, district and school websites, content-based newsletters (math, Equity and Inclusion newsletters), social media platforms, and weekly emails from the superintendent to families and staff. For this school year, some teachers continued to use their Google Classroom and a website as a means of communication. Social media is also used by administration and teachers to share information about the schools and activities.

The Parent Teacher Organizations (PTOs) are active and involved in each school. A representative from each school's PTO meets with the Superintendent on a monthly basis. The PTOs at each school provide regular input to the administration on programming and provide a variety of services to the schools and students. The PTOs help sustain a positive culture by sponsoring school-based activities such as movie night, evenings at Quassy Park, etc.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Region continued its work on welcoming & inclusive schools by co-leading the Middlebury & Southbury Equity & Inclusion Council. This Council includes parents, teachers, administrators, middle school and high school students, and community members. The Council's goals are building an awareness in students, staff, and the community life-long respect and compassion for themselves and other human being regardless of race, ethnic origin, gender, social class, disability, religion, appearance or sexual orientation. This year, the Council revised the action plan and established ten community working groups in addition to the work in the schools. The Council meets both in person and virtually throughout the school year to continue to plan activities for the communities. The action plan for the Council is housed on the Region 15 website under Community.

The staff is committed to providing opportunities to assist in the Council's and Region's goals. The efforts include a variety of classroom, grade level, school-wide, and district-wide programs, events, and activities, the revision of curriculum to ensure that students have "windows, mirrors, and sliding glass doors," training on bias for paraprofessionals and new teachers, ADL Ally training for middle school students, etc. Cultural arts programs and assemblies throughout the year provided opportunities for students to experience different culture, celebrations, music, and activities.

For the past few years, the Region has worked to increase diversity in the staff. Region 15 participated in the Connecticut Teacher in Residency Program. The Region has supported one candidate at the elementary level for the past few years. This was a way to begin to diversify the Region's teaching staff which will continue next year. The Region also attended various job fairs and posted vacancies on platforms such as Nemnet.

Each of the schools in Region 15 has a leadership group focused on programs and fundraisers to support community and humanitarian causes such as contributions to local food banks, clothing drives to support families in need, and support to charitable organizations.

Regional School District 15

Equitable Allocation of Resources among District Schools

The Region 15 Board of Education has a strong commitment to providing equitable allocation of resources among the schools in the district. Building level principals, district-wide administrators, and central office staff work collaborative to develop a budget that addresses the needs of each school and supports the theories of action of the Region. Principals work with their staff to determine needs based on their school and curricular needs. The Board of Education allocates financial resources based upon needs identified on an annual basis. Some allocations such as those for technology and for facilities are based on long-term planning to ensure that the Region is providing funds for the greatest needs.

Staffing is closely monitored to ensure equitable programming at each of the schools. Class sizes are based on planning numbers that have been recommended by the school system.

During the budget process, the Superintendent, the Board of Education members, and administrators have community meetings to discuss funding needs and to listen to the public's feedback.
