Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Regional School District 17 continues the use of specific building-based Continuous Improvement Plans with measurable goals and action steps in instructional areas, family engagement, and school climate aligned to the District's Strategic Operating Plan. Common planning time and data team structures are provided for all teaching staff in PreK through grade twelve to ensure data-driven planning and instruction. Data-driven decision-making provides teachers with insight into curricular improvements necessary to positively impact student outcomes. Our data process and protocols were refined this year and more time was devoted to data team reflection, collaboration, and planning.

Through various funding sources, a professional development plan, overseen by the PDEC committee, is in place to align with each school's Continuous Improvement Plan, and feedback from staff is analyzed. The district continues to support professional development opportunities for staff in all content areas; including the Science of Reading, Restorative Practices, Building Thinking Classrooms in Mathematics, the New Art and Science of Teaching, and school climate. Curricula are aligned with applicable national and state frameworks for instruction and are being updated through a cyclical process overseen by the District Curriculum Council. The district maintains a comprehensive coaching and intervention structure to assist in the areas of language arts and mathematics. Student Services continues to focus on increasing the inclusion of disabled students with non-disabled students and has implemented formal pre-referral models at all schools. Ongoing collaboration between regular education and special education staff continues to support new initiatives in the areas of teaching and learning. In addition, we partnered with Effective School Solution clinicians at both the elementary, middle, and high schools.

The RSD17 Summer Learning Website is updated annually to provide extensive math and ELA opportunities for parents to support their children at home in the summer. Jumpstart summer sessions were held for incoming kindergarten and middle school students to ease the transition into Kindergarten and Middle School.

Families are viewed as essential partners and included in a variety of meetings, assemblies, and evening events throughout the school year. Educators involve families in their child(s) education, ensure consistent communication, and include information about progress and growth opportunities. The RSD17 Vision of the Graduate continues to influence our Continuous Improvement Plans, curriculum updates, and professional learning plan. The Vision clarifies and unifies our goals for students. It describes skills and dispositions across six elements that interact with each other and with curriculum content standards, facilitated by excellence in teaching, to support the development of a learner prepared to contribute and succeed. These traits have always been essential, and we imagine a future where all students are prepared to provide leadership, creativity, and ingenuity in an increasingly connected global world.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Regional School District 17 is committed to an inclusive educational experience for all students and to expanding students' opportunities to interact with the diverse global community. We intentionally plan, design and initiate various cultural awareness experiences to broaden student perspectives about the world. A multitude of classroom and assembly-based programs continue to be incorporated on an annual basis. Our curricular approach provides experiences that teach and promote acceptance and kindness, and an understanding that everyone has a story. Diverse texts are integrated into the ELA and Social Studies curriculum K-12 in order to offer students "windows and mirrors" into diverse cultural backgrounds. Middle School teachers participated in Restorative Practices professional learning in order to strengthen relationships, build social relationships within communities, and repair harm. The High School partnered with NCCJ in order to provide programming related to social justice, social identity, and reducing bias, bullying, oppression, and discrimination. Topics related to social justice, equity, bullying, harassment, and acceptance are taught through our Tier 1 research-based SEL curriculum, Second Steps (K-8) and School Connect (9-12). DESSA was used as a universal screener in K-8 and data has been used to confirm, add and revise supports for students. Our High School offered the new Black and Latino Studies elective course and experienced full enrollment. The Seal of Biliteracy is promoted and awarded to students that meet the requirements. Opportunities for secondary students to complete coursework at local colleges and universities continue to support the efforts of the district to include HK students in more culturally diverse learning environments.

Equitable Allocation of Resources among District Schools

Regional School District 17 enjoys the support of the communities of Haddam and Killingworth. It continues to be the practice of the Region 17 schools administration and the Board of Education to ensure equitable allocation of all of the district's financial resources in a manner that meets the needs of all students. The budget development process begins in early November of each year, with building administrators and department supervisors submitting budget requests to the district's central administration. These requests are reviewed in conjunction with the District's Strategic Operation Plan, Vision of the Graduate, state and national requirements, and clearly stated objectives for the next school year. Various data points are considered to ensure that requested funding aligns with planned district initiatives and needs. Considerable efforts continue to allow the district to use financial strategies such as cooperative purchasing, re-appropriation of existing resources, and a district-wide commitment to economic efficiency has resulted in effective outcomes.
