Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Ridgefield School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Ridgefield Public Schools is always seeking to grow ever better in systems, structures, professional learning, engagement, and communication with families. Creating a student-centered, equitable experience for all students continues to be the driving force as the district seeks to educate students to achieve the skills of the RPS Vision of the Graduate.

This drive is evident in the study and implementation of curriculum done in collaboration between Central Office and the schools. For example, our recent focus has been on 'rebooting' and aligning our MTSS system K-8 and determining what MTSS looks like at the high school. We have implemented a new data storage system and have fully implemented data team meetings at all of our schools. This work is done in collaboration with general and special education teachers and all of the upcoming professional learning will also be provided to all teachers and specialists across our schools.

RPS schools at all levels used a variety of strategies to continue to work on social-emotional support and build the bridge from home to the school community. We continue to assess and refine the implementation of tools and programs to support social-emotional learning and create a climate in our schools that is inclusive and all students feel that they belong and are able to access learning.

This year communication to families continued to be a priority. RPS continued to provide and update a teacher and parent-facing website, send regular newsletters, and place positive phone calls home. The Superintendent sends out weekly updates and all buildings followed the 24-hour response guideline to connect back with family questions or concerns. We updated our district website which makes it easier to find and access information. We also provide a series of parent workshops, broadcast on our Curriculum YouTube Channel where parents could choose to watch live and submit questions or watch a recorded version at a time that works best for them.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Ridgefield Public Schools continues to work to reduce isolation, racial, ethnic, economic, or any other type, as the District seeks to bring the mission and vision of the graduate to life for all students. This is evident in different ways across the levels. Students at the elementary level continue to experience classroom libraries that include windows into other cultures and perspectives, as well as mirrors into students' own lives. Students encounter many texts that include positive messages about culture, tolerance, empathy, and kindness. The ever-growing collections reinforce the inclusion and value of all students in RPS. This inclusion is not just evident in libraries, it is also evident in the authors that visit, through the support of the PTAs and the artists that students study in art class. Students learn to value the perspectives of others, navigate and recognize their own emotions as well as those of others, and how to handle conflict.

At the middle school level students continue to engage in learning about different perspectives. No Place for Hate continues to support our students and faculty at the middle and high school. Student learning is focused on curiosity, critical thinking, and questioning, especially in social studies and science instruction that engages in the inquiry cycle. This helps foster empathy and informed citizenship which can positively contribute to our culturally diverse and interdependent world. At the high school, various activities are implemented that collectively qualify the school to obtain the Anti-Defamation League's No Place for Hate (NPFH) designation. We held an interactive assembly program that focused on: understanding bias and prejudice and how to be an ally. In addition to these activities, the annual Man's Inhumanity to Man program was included in the NPFH designation. During the assembly program, 10th and 11th-grade students had the opportunity to hear the first-hand stories of Judith Altmann, a Holocaust survivor after studying about the time period in history class. At both the middle and high school level, staff received professional development from individuals and organizations devoted to supporting schools in creating welcoming and inclusive environments for all students and staff.

Equitable Allocation of Resources among District Schools

RPS strives to create a student-centered, equitable experience for all students. This includes the equitable allocation of resources. At each of the levels, systems have been established to ensure this. The Elementary Director and 6-12 Supervisors support the schools in this work by evaluating and revising the curriculum and the MTSS process with teachers and administrators. Consistent class size guidelines, aligned collaborative professional learning across levels, and a push to memorialize curriculum were also done. Initiatives are identified through needs assessments and the curriculum review processes. These studies are clearly communicated and teachers are then supported at the classroom level to ensure consistency and calibration.

Hiring is a collaborative process. This district-wide approach results in high-quality candidates for all schools. At the funding level, RPS continues to use partial resource allocation based upon student enrollment, which provides equity in terms of student funding. Limited Title I and Title II funds are used to supplement the schools, based on a needs assessment and eligibility.
