Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Stonington School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Stonington Public Schools has established a Welcoming Schools committee at each building dedicated to creating an inclusive and welcoming school environment. This committee works towards fostering a safe and supportive atmosphere that encourages families to get involved in their child's education. To promote transparency and engagement, the district offers various opportunities for parents to witness learning in action through classroom visits and newsletters. Additionally, parents receive regular communication through Parent Square, which provides updates on school events, schedules, and other important information. Our Parent Teacher Organization (PTO) organizes family-based activities that promote community involvement and engagement. Furthermore, our district recognizes the importance of building relationships between parents and teachers. To facilitate this, we hold events like Night of the Arts, Kindergarten Night, and Back to School Night/Parent Teacher Conferences, which provide opportunities for parents to meet with teachers and administrators. Our teachers receive resources and professional development to support family engagement, and there is regular communication between teachers and families through Parent Square and phone calls. Our district also places a strong emphasis on mental health and attendance matters. We have implemented in-house attendance challenges and mental health open houses at various community locations. The district increased the number of school social workers. Social workers did root cause analysis on truancy and chronic absenteeism, held progress monitoring meets with students, and conducted home visits to support attendance. These events aim to promote healthy habits and a positive school environment. Finally, our district has established a Parent Advisory Group that meets monthly to discuss school-based family activities and outreach efforts. This group provides a platform for parents to share their ideas and feedback, and it helps to ensure that our district's efforts are meeting the needs of our community.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Stonington Public Schools continues to foster student understanding and respect for diverse populations who attend our schools and live in our community. Work specific to Diversity, Equity and Inclusion (DEI) expanded this year based upon the District's Call to Action drafted in July 2020. The district's Anti-bias, Antiracist (ABAR) admin team steers the work for faculty, staff and students and provides professional learning for all educators and administrators. Stonington alumni helped inform this work and contributed to the development of learning opportunities for staff members. At the elementary level, there are positive behavioral support programs that center on developing core values. Through classroom studies, students develop an appreciation for cultural perspective, learning about varied family customs and traditions. The elementary and middle schools implement the Second Step curriculum in grades K-8 to support social-emotional learning and the development of pro-social behaviors. To supplement the Second Step Curriculum, topics of identity, stereotypes, equity and racism are also addressed through the K-12 VOICE program. The appreciation of other cultures and the value of fluency in a second language is reflected by the number of the graduating class (twenty-five percent) at Stonington High School earning the Seal of Biliteracy. The school-based health center works with local agencies to provide programs for students and families on health and nutrition, including mental and physical well-being, healthy food, and meal preparation based on simple, low-cost ingredients. Mental health staff work with students to instill common language and positive behavioral expectations. The use of technology expands access to local and global information, while music and art instruction support cultural studies. Students participate in a variety of service projects to support needs found within our community. The district conducted the Welcoming School Protocol in all school locations with teams of teachers, staff, parents, and students. These teams reviewed the physical plant, policies, and procedures, welcoming staff, and written materials and created an action list to improve welcoming and acceptance across all aspects of the school experience.

Equitable Allocation of Resources among District Schools

Stonington's Board of Education dictates that comparable resources are distributed to each school in the district. Students in each grade, regardless of school assignment, receive equal access to these resources. Budgets are developed annually to address school and district needs. Consideration is given to enrollment figures, class-size, programs, student performance and growth data, curriculum, and district initiatives. The process of budget development at the district level is informed by building administrators' recommendations and contributions to budget discussions. Equitable requests are made to the Board of Education. Monies for supplies, texts, and other academic materials are budgeted on a per-pupil basis. In January, the Superintendent presents a proposed budget to the Board of Education. This is formulated based upon input from building level and district level administrators, as well as input from school-based teams. Public meetings are conducted in January and February as the Board of Education studies financial figures and builds its budget for presentation to the Board of Finance. Input from the community is welcomed and a town-wide referendum is hosted in May.
