Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

School District Improvement Plans and Parental Outreach Activities

The District Improvement Plan focuses on the school goals, Theory of Action, Strategic Operating Plan and Board of Education goals. The Board of Education uses its Strategic Plan to define its primary focus for the district as a whole. The Strategic Plan makes the important connections to the building School Improvement Plans, which ensures improvement in instructional practice, and results in improved student achievement. The District-Wide Professional Development and Evaluation Committee is leading the charge in supporting the implementation of the new evaluation plans for teachers, and also designing and developing professional development that is aligned to committee goals. The Special Education department has conducted professional development activities designated to improve special education programming and outcomes for students. Teachers collaborate with their general education colleagues to develop and refine their skills regarding the instruction of reading and math for the most challenging students. Additionally, we have provided our paraprofessionals on-going training to support their work with children. The district focuses on Tier 1 interventions, particularly in reading, developed universal screens, has progress monitoring in place, and identified grade level expectations. The district has more closely aligned the SRBI process to meeting the needs of students through intervention work. The district is implementing All Day Kindergarten for all students and provides a strong preschool opportunity for three and four year olds. Parent-school community relationships continue to be an area of focus. The engagement of the community has proven to be highly successful in deepening understanding about our purpose. The support from the town governance, community, and parents has resulted in significant changes and increased support for education and the schools. This will continue to be a priority and a necessity for us to accomplish what we have set out to achieve. Additionally, we continue to define new means of communicating with parents and the community.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Suffield Public School system remains committed to reduce racial, ethnic, and economic isolation through local regional school and district programs. Exchange programs, inter-district partnerships with neighboring districts, as well as, participation in the Open Choice program provide opportunities to bring students and families from diverse backgrounds together in furthering the ideals of diversity, equity, and inclusion for all. Suffield Schools have been an active member of the Open Choice program for many years. As part of the Open Choice program, the district was provided access to professional learning resources and scheduled two implicit bias trainings for the 2020-2021 school year. In 2021-2022, the district began its partnership with SERC to further support our district goal of promoting diversity, equity and inclusion for all. To further engage with stakeholders on these important topics, the district created a district-level Diversity, Equity, and Inclusion (DEI) Council. This group, which included faculty, staff, parents and students, met five times over the course of the school year. Additionally, several DEI Council subgroups were formed, of which met multiple times to discuss grants, professional development, curriculum, and how best to communicate our efforts in creating a more welcoming and inclusive school district. In 2022-2023, the district continued its work with SERC for professional learning and community building. For professional learning, staff received training on identity, bias, and trauma informed practices.

To foster greater community involvement within each school, School Equity Teams were developed to focus on school-based efforts toward creating more welcoming and inclusive school environments. The Suffield Public Schools also utilizes Positive Behavior Support programs in all four schools. Responsive Classroom, is utilized in our elementary and middle schools, and elements of it exist at the high school level. Our staff have received a high degree of training in Responsive Classroom practices, of which have resulted in school-wide frameworks for implementation. The primary goal of this program has been to develop greater tolerance for differences.

Equitable Allocation of Resources among District Schools

Since the Suffield School District can be best characterized as a small district with approximately 2,100 students. Due to our size, we are able to ensure the equitable distribution of resources among our four schools to meet the needs of all learners. District committees are constructed with equitable representation from all schools for the purpose of maintaining an even proportion of resources and input required to make thoughtful decisions. Important to note, the Suffield Public Schools budget is prepared to support the district mission, vision, and district Theory of Action. This process ensures that the budget is allocated appropriately by school and by program. The resource allocation continually reflects the priorities and goals of the Board of Education, as well as, our focus on our ongoing objective of meeting the needs of all students of the Suffield Public Schools. In addition, the district is also fortunate to receive additional resources from various civic organizations, with Suffield Community Aid, PTO/PTA, Suffield Foundation for Excellent Schools, and our many boosters who further funding for district programs and services.
