Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

At Bridge Academy we are committed to offering students an inclusion model with both high expectations for academic and social/emotional growth and the support students need to succeed in class, on important assessments and in life. Toward this end, we review and revise all IEP goals annually to ensure that they meet each student's individual and academic needs. All general education teachers meet with special education teachers bi-weekly to review progress toward goals and determine next steps. All students receive one small group class period a day each of leveled literacy and numeracy instruction and receive one class period a day of intervention support. Special education teachers meet regularly with a special education consultant to ensure that they are constantly improving their practice and their support of both students and families.

Following our Tiered Attendance Plan we first work to create a positive culture and climate in part by planning multiple opportunities for school connection throughout the year, including morning advisories, student-led whole school assemblies, activity days, field trips and a robust after school program. We carefully monitor the academic and social/emotional needs of every student and respond accordingly with everything from creating tutoring programs to meetings with our social workers to enabling families to get the outside help they need. Our Attendance Committee consists of social workers, administrators, teachers, paraprofessionals, our Social Emotional Learning Coordinator, school counselor, secretaries and nurse. This team meets bi-weekly and works together to identify barriers to attendance and create individual plans for struggling students to ensure they come to school every day. In addition, we have created a school Uber account to transport students who have no other way of getting to school. Lastly, we also purchase monthly bus passes for students for whom the walk to school is a barrier to attendance.

We continue to conduct Parent Teacher Home Visits for all 7th and 9th graders; we are excited to partner with our families in this way. We will continue to host regular meetings around themes of interest to our community including how to support reading and math growth at home and how to support student social/emotional well-being, physical health and nutrition, etc. We will continue to have parent representation on our Governing Council and hold one or two Climate Committee Meetings virtually in the evenings to allow for greater parent participation. We regularly survey our students and families to learn their opinions on a range of topics in order to better meet their needs. We have two Family Engagement coordinators who are responsible for ensuring that our families feel supported and heard throughout the year. We also conduct student and parent focus groups to ensure that their voices are heard.

Last year we received a grant to partner with SchoolWorks, a school improvement organization, as part of our work to move from good to great. This partnership has led to demonstrable improvements in professional development implementation and instruction.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Our enrollment application is simple and asks only for a student's demographic information. It can be found on our website in both English and Spanish. We also advertise on local Spanish radio stations. Applicants are admitted through a lottery.

We work to reduce racial and economic isolation by allowing any interested student to apply and attend regardless of residency. This allows us to enroll students from a range of cultural and socio-economic backgrounds.

We are committed to recruiting and hiring a diverse group of teachers and staff; our staff currently consists of more than 50% people of color. We also have six staff members who were former students.

Our curriculum is designed to increase awareness of various cultures and points of view. Teachers also regularly share the accomplishments of underrepresented groups such as people of color and women in fields such as science, mathematics and history.

We host multiple multicultural days and assemblies throughout the year at which we celebrate the many cultures, languages, and experiences that make up our community.

We partner with a number of community and state-wide organizations in order to expose our students to a range of activities and opportunities. For example, we have a group of students that goes to Beardsley Zoo once a month to learn about ecosystems, animal habitats and more through our Trout in the Classroom program. All of our Seniors take Housatonic Community College classes for free through our partnership with HCC. We also work with several mental health organizations to ensure our students and staff get the support they need.

Many of the clubs offered through our after school program introduce students to activities they may not otherwise be exposed to such as Outdoors Club, Spoken Word Poetry Club, Rock Climbing, learning to be a docent at the African American Museum in Stratford, Lifeguard Training, learning to be a tour guide at the zoo and Anime Club.

We also encourage field trips that will expand our students' horizons and support their learning. Trips to concerts, museums, aquariums, parks, skiing, the state capital, and to Washington DC give students exposure to art, culture and nature that they may not otherwise have an opportunity to experience.

Equitable Allocation of Resources among District Schools

Since our "district" is made up of only one school this question is not applicable.
