Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Efforts to improve special education programs and services for students with disabilities include a full-time BCBA, a new Preschool classroom, expansion of the alternative program and co-teaching. The BCBA collaborates with teachers on plans to address student behaviors. Four full-day Preschool classrooms address a dearth in local Preschool options. The expansion of the district's alternative program allows K-6 students and families experiencing the most severe social-emotional needs to have the same access to clinicians as those at the high school. Formal co-teaching began in all schools last year, pairing one special education teacher with one general education teacher to co-instruct students in the general education classroom.

The District Attendance Review Board (DARB) is a collaborative approach to truancy prevention. Each school has an active DARB, comprised minimally of the principal, school counselor and the school nurse. DARB communicates with parents about attendance concerns, provides necessary outreach and plans specific interventions with families to improve overall engagement in school.

All schools are committed to engaging families in student learning. Efforts to build staff skills to partner effectively with all families are evidenced in monthly Parent-Teacher Association (PTA) meetings. Teachers team with the PTA to engage parents in the planning and improvement of school programs.

Efforts to engage parents in planning and improvement of school programs come through the Principal Advisory Council (PAC), surveys and newsletters. The elementary and high school PACs meet monthly with School Principals to seek ways to continuously improve the educational process for students and families. Surveys solicit parent opinions on the school climate and to identify programs and practices in need of improvement. Monthly grade level newsletters detail school-related events and activities as well as ways parents can work at home with their children on learning activities. A Language Arts and a Mathematics newsletter are distributed to engage our parent community in those aspects of our work. Google Classroom pages and teacher webpages and weekly notifications from School Principals keep parents aware of school/community activities/resources. A private Facebook group as well as a public Twitter page announce events and celebrate the work of students and staff.

Activities undertaken to support parents in working at home with their children on learning activities include but are not limited to the Thomaston Center School (TCS) Transition Meetings, Parent Academies and Pathways to Prevention. TCS offers transition meetings for parents of rising Grade 4 students, which provide assistance to both students and parents as they transition from the lower elementary school to the upper elementary school. "Parent Academies" engage parents of students whose Smarter Balanced and iReady performance levels are close to proficiency. Parents attended in-person and virtual meetings to learn about assessment reports, the social-emotional impact on student performance and overall student wellness. As a result, students experienced an increased level of performance. The Pathways to Prevention Program provided courses to parents on a variety of topics such as behavior as communication; stress, worry and mental health; and parenting skills.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Our full-day tuition-free Preschool is designed to reduce economic isolation and Black Rock School offers a "Comfort Closet" that provides water bottles, socks, snacks and personal hygiene items to students. Students may attend interdistrict magnet schools, but those who remain in-district experience activities to increase their awareness of diversity. Elementary teachers integrate cultural and ethnic awareness into the language arts, social studies, music and art curricula. Interdisciplinary programs encourage students to understand and embrace cultural and ethnic differences, i.e., After-School Outdoor Enrichment Program with schools from other towns and Exploration Celebration lessons on various cultures.

Students read literature exploring a variety of cultural, ethnic and economic situations that may be in contrast to their own. School Counselors implement a district-developed, research-informed program that includes lessons based on thematic character pillars: cultural awareness, citizenship, responsibility and caring. Classroom and school-wide activities promote the growth of mutual respect, tolerance and positive character. K-6 students participate in Behaving Exceptionally And Responsibly (BEAR), a homegrown program designed to build a student's social-emotional skills and to actively encourage kindness.

Students at Center School participate in Project Wisdom, a daily announcement program designed to promote making positive choices which are followed up with corresponding classroom lessons. Additionally, a student group representing all grade levels attends the Elementary Level Leadership Conference annually. A goal for Thomaston High School is to enhance cultural knowledge, instill a greater appreciation for diversity and embrace differences within the school. Advisory, Gay Straight Alliance, Beauty, Inside and Out, world language courses and culturally themed events achieve this goal. Students interact with a diverse group of students from other schools through the Connecticut Youth Forum, Middle School Leadership Conference and Middle School Writer's workshop. Linked to the Advisory Program, Challenge Day (a nationally recognized diversity program occurring every four years) focuses on instilling respect and appreciation for a diverse world.

Equitable Allocation of Resources among District Schools

Staff collaborate throughout the budget planning process to be certain all resources are allocated equitably and shared across the district and ensuring that students' needs are addressed. Pupil Services has been able to achieve a cost-equitable, high level of service through in-school therapeutic programs providing a least restrictive environment and keeping students in their home district by using funds for local supports that otherwise would have been used for outplacement costs. The administration works collaboratively to share resources between and among buildings and departments. Professional workshops, materials and staffing are shared across disciplines and between general and special education. Parents provide feedback through surveys and parent-perceived inequities are included in budget planning and resource-sharing efforts. In an effort to equitably represent the needs of each school to the community, a district-wide Parent Teacher Association provides resources to all schools in the district. Every student PK-12 receives a Chromebook to take to and from school.
