Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The 2022-2023 school year was a highly successful school year. The Trumbull Public Schools focused its improvement in the following areas: Ensuring the Physical, Social, and Emotional Well-Being of All Students and Staff; Optimizing Teaching and Learning; and Operational Excellence and Continuous Improvement. Our first goal around the wellness of all staff and students generated many successes. We added 109 cameras across our district which are accessible to the Trumbull Police Department. In addition, we examined and revised our PBIS system as part of our new Multi-Tiered Systems of Support. Given the importance of mental health, on a quarterly basis each school shared additional resources that were available to families to support mental health needs. Additionally, we focused specifically on chronic absenteeism at the secondary level given the increases we had seen in the previous year. Finally, we conducted our town-wide mock scenario to increase our overall readiness for large-scale school emergencies. As it relates to our Teaching and Learning goal, we completed a K-5 Assessment Calendar to ensure that each assessment had purpose and meaning to students and staff. We also reviewed and updated our philosophy for our instructional coaches. We completed an audit of our reading program to identify next level of work. Last year we adopted our Trumbull Vision of the Graduate and this school year we began to embed the Vision into our work. Finally, we began work on analyzing the distribution of reading scores, placement recommendations for 6th grade Math and 10th grade English, as well as enrollment in college credit classes for students in 12th grade. Finally, our goal on Operational Excellence focused on identifying an electronic evaluation platform for teachers and administrators, fully implementing position control, implementing a consistent website platform for all schools and the Board of Education, implementing CT SEDS, and using Infinite Campus for online payments. A full account of each goal for the 2022-2023 school year can be found on the Trumbull Public Schools website.

Our parent outreach for the school year was excellent. Principals at each building continued to send weekly communications to all families about upcoming events and ways that parents can be involved in the teaching and learning process. The Superintendent of Schools continued to send a monthly update to all parents and staff as well. Our monthly "Town Hall Meetings" for staff were held three times at each level. The Superintendent continued to meet with the Parent-Teacher Association Council (PTAC) to discuss opportunities for families and ways for the schools and parents to collaborate. The PTAC continued to benefit students in a multitude of ways through the time, treasure, and talent they offered at each school.

Our parent and student activities thrived during the school year as we brought on new programs like eSports to compliment the robust set of activities we offer all students.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Trumbull Public Schools recognizes every child's right to a free, high-quality public education and values the richness of diversity. With this commitment in mind, we engaged in activities designed to reduce, racial, ethnic, and economic isolation. The most significant of our work was the continuation of key committees: an Equity Steering Committee, which consists of primarily central office leadership, a District Equity Leadership Team (DELT) with representatives from across the district, our School-based Equity Leadership Team (SELT) at the high school and the creation of a new middle school SELT.

Our DELT continued to ensure that the district was doing its best to actualize the recently adopted District Equity Position Statement. Not only did we train a school-based team at our Middle Schools but we took a deep dive into our data to identify disproportionalities that may exist. The newly formed high school school-based team also met regularly throughout the year. This led to identifying next level work for the 2023-2024 school year around analyzing our placement criteria, placement process, course offering and prerequisites for courses. Additionally, we continued with our participation in the Open Choice program with Bridgeport Public Schools and our Human Resource department made additional connections that should increase the diversity of our staff.

Our work in providing access to all students is also directly embedded in the curriculum and instructional experiences we provide. At the high school level, our History department has been approved to offer an American Indian History course which will focus on recognized tribes in Connecticut. Additionally, revisions to our Grade 9 English curriculum to further broaden the choice of authors were started. Finally, our Shades Club continued to thrive as a safe place to discuss and share resources.

At the elementary and middle school levels, students explored issues of diversity and inclusion with classroom lessons as well as PBIS activities and school assemblies. The texts and novels interwoven into the curriculum are aimed to show diversity of representation.

Equitable Allocation of Resources among District Schools

The Trumbull Public Schools is committed to allocating resources in an equitable manner. The Board of Education goals drive the district and school improvement plans. These plans drive the budget development process and ensure that students' needs are the driving force in the process. The district leadership team reviews data from the schools and allocates resources based on need to avoid potential inequities. As the district developed its uses for ESSER grants, we employed these same techniques so that each school would receive what it needed based on student performance data. Additionally, TPS has two Title I elementary schools which receive funding in order to support our neediest of students from an economic perspective. Through an analysis of student outcomes, we were able to identify students and schools with additional needs and to identify opportunities to flexibly use our current resources. We also worked closely with our PTA's to ensure that they have understood the policies around raising and expending funds. Finally, we also provided student waivers to participate in pay-to-participate activities.
