Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Watertown School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Watertown Public Schools is committed to a collaborative relationship between all stakeholders to give every individual learner what they need. In Watertown, we strive to provide a full continuum of supports for all of our students. Our district and school success plans reflect a breadth and depth of goals and objectives carefully designed to fully engage our students, families and school community.

Watertown has elected to specifically focus on consistent and vertically aligned SRBI processes (Scientific Research Based Interventions) and PLC practices (Professional Learning Community), as two high leverage pathways to improving student success and achievement. Building capacity to utilize these practices with fidelity across all of our schools is at the heart of our district and school improvement plans.

Each of our schools has an SRBI Coordinator. The SRBI Coordinators work collaboratively as a district team under the direction of the Director of Operations, Curriculum & Instruction to ensure consistent practices and tiered interventions across our schools. The SRBI Coordinators train staff, oversee our early intervention processes and the use of RTI Direct, our chosen platform to track student response to interventions. We are proud to report that we have structures in place to provide Tier II and Tier III interventions across our schools, including at the middle school and high school levels.

Our success plans likewise focus on PLCs. Building administrators and SRBI Coordinators provide job embedded professional development on the use of effective PLC Processes. Teachers continually move through the cycle of inquiry to ensure the most effective Tier I instruction.

There are other key support staff that serve to provide services to our students. Each school boasts a full time School Resource Officer. Watertown likewise retains social workers and has partnered with CMHA (Community Mental Health Affiliates) to identify students in need of counseling services. Finally, we have been able to onboard a Student Engagement Liaison to work with families and improve student attendance.

In the area of special education, Watertown has been building various specialized in-district programs to meet students' needs. For example, we have aligned K-12 Behavioral Assistance Programs, Cub Den (K-2), RISE (3-5), WINGS (6-8) and SOAR (9-12). Additionally, we have two Autism Programs, ASPIRE. There are two Life Skills Classes in the district, one at the middle school and high school, and a wide selection of Unified classes at the high school. Finally, we have an offsite Transition Academy that provides real work experiences for our ages 9-22 students.

Family engagement is paramount in Watertown. We have very high participation rates in Parent Teacher Conferences. We are fortunate to have very active PTOs. District and school communication is consistent and strong, with weekly outreach notifications from the Superintendent of Schools and each building administrator. We likewise leverage a robust website. There is a full calendar of varied school events and clubs that cut across many areas of interest, from athletics, to drama, to robotics and so forth. We likewise have a very strong Unified Sports Program.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Building strong relationships is a key component of developing an appreciation of cultural diversity. Across the district, administrators and teachers participated in professional learning opportunities that focused on improving instructional strategies to meet the needs of all learners. The formation of school improvement teams, to examine local overall performance data relative to the performance of each subgroup, is the key to reducing racial, ethnic and socioeconomic isolation. At Watertown High School, English Language Arts and Social Studies courses explore topics such as ethnicity, the Holocaust and the Civil Rights Movement, using literature and primary source documents. Cultural understanding is emphasized in our World Languages classes through immersion activities and the establishment of pen pals with students in other nations. The WHS Delta Club was established by students to lead school-wide efforts to promote improved school climate and acceptance of others. This group has supported efforts such as "The Truth About Hate," from the Anti-Defamation League, and "Rachel's Challenge." The Interact Club reaches out to the greater community through work in soup kitchens and community service for the elderly. Swift Middle School continues to offer interdisciplinary lessons that highlight diverse cultural backgrounds. Many school clubs reinforce cultural diversity in their activities. World Cultures activities support efforts to bridge the cultures of the world through understanding. Swift's developmental guidance and health curriculum programs emphasize a strong anti-bullying message and encourage respect and kindness. At the elementary schools, diversity and tolerance are emphasized in numerous ways. Students conduct a variety of fundraisers to support people in need. Interdisciplinary programs involving music, art, physical education, and classroom teachers are held throughout the year.

Equitable Allocation of Resources among District Schools

The budget process in Watertown is inclusive and transparent. Our process ensures that community members, faculty, staff and administration needs are heard and that equitable resources are allocated to each school. Administrator and program leaders, after soliciting needs of staff, identify school program needs at the start of the process. All requests are considered at meetings held by Central Office leaders. Recommendations are presented to the Board of Education Budget Committee and, after review, to the full Board of Education. Presentations of the Board of Education budget are made throughout the community to solicit feedback and input from all stakeholders. If budget reductions are deemed necessary, all administrators participate in the reduction process, as it relates to his or her school and or program. Each administrator prioritizes requests and helps determine where reductions have the least impact. Budget reports reflect school-based allocations of requested materials and resources, making it possible to identify the equity of resource allocations among schools in the district.
