Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

WHPS leverages its District Strategic Plan to support multi-year efforts toward systemic improvement. Strategic efforts are grounded in collaboration, core standards, best instructional practices; data teams, the SRBI process, and support for professional learning. Ongoing areas of focus include family engagement, culturally relevant student-centered instructional practice, SEL and social justice education, expansion and improvements to our special education programming. All efforts are aligned to the district's Vision of the Graduate which articulates the skills and dispositions all students will master by graduation.

The Office of Equity Advancement has expanded its partnerships to engage and support families under our Equity Vision. The district has coordinated efforts for grants for student engagement and community partnerships, panel discussions on social justice in collaboration with university partners, and parent partnership activities related to family outreach, communications, curriculum review, professional learning and engagement.

The district partners with several parent-led community organizations which have influenced practices related to diversity in curricula, enrichment programming, policy, diverse parent and student engagement and more. The One Community for Equity network of parents/caregivers, educators, and community agencies have provided rich opportunities for collaboration and shared learning about issues of equity, race, racism, inclusion and social justice topics. Diverse speaker workshops and panel discussions, featured presentations and an Equity Advancement newsletter offers resources for how schools and families can collaborate to support students and promote academic success and social emotional wellness.

The District maintains a focus on the effective integration between general and special education. The Department of Pupil Services communicates regularly with stakeholders through quarterly newsletters, Coffee with Director Series, and parent/caregiver educational series. Leadership monitors delivery of educational services and inclusion practices. Recent changes to programming include expansion of alternative programs such as intensive academic programming, continuation of the district supported community bookstore as a vocational training location for our Post-Secondary Transition students; modifications to the School Engagement Program to increase active engagement and social and emotional well-being; training for clinicians in SEL interventions; and the inclusion of mental health coordinator and school counselors at the elementary level to support student regulation. The District expanded community partnerships for mental health and wellbeing supports for students through an ongoing partnership with the Bridge and Hartford Healthcare Institute of Living.

District structures enable a through line for strategic efforts from the district to the classroom. Building leaders design improvement plans based on student metrics and teacher performance. Classroom teachers receive reports on the student achievement. Teachers meet weekly during dedicated professional development time to review results and extend data analysis to the classroom level. Our early release Wednesday model provides dedicated time to support district, school, and grade-level initiatives and individual professional learning goals.

Efforts to Reduce Racial, Ethnic and Economic Isolation

As a diverse community, West Hartford is one of few towns whose percent of minority students and those eligible for free and reduced lunch closely resemble the state average. During our 182-day school year, there are innumerable opportunities for interactions between students of different races, ethnicity, and socio-economic groups. Beyond the day-to-day activities, the district has strong participation in a variety of programs that promote reduced racial, ethnic, and economic isolation. Approximately 330 students attend inter-district magnet, charter, and vo-tech schools. West Hartford has two magnet elementary schools with a total enrollment of 831 students and a magnet enrollment of 36 students. The District consistently makes efforts to ensure services are provided in the least restrictive environment. The School Engagement Program has been relocated back to the comprehensive school sites to ensure access and supports within homeschool communities. Our district actively recruits minority staff members and participates in CREC Teacher Diversity Recruitment Fairs, UCONN Job Fairs as well as hosting our own career fair. We support and grow our high school Future Educators of Diversity Program. We also have a partnership with the CT Teacher Residency Program to train and support diverse candidates. We are an active participant in the Open Choice program with 220 students enrolled.

The district has a well-established Office of Equity Advancement that reports directly to the Superintendent and partners with Curriculum and Human Resources to support educational initiatives to reduce racial, ethnic and economic isolation. The district sponsors positions serving as outreach coordinators to support families of English learners and liaisons to town services.

The school board has taken an active role in upholding the tenets of its Educational Equity Policy. The Board continues to support magnet schools, HANOC, The Bridge Family Center, Graustein Memorial Fund Project, Summer Academy, an LGBTQ+ Alliance, Equity and Diversity Council, community conversations regarding diversity, the elimination of school mascots, training in Culturally Responsive Pedagogy and Trauma Informed Practice, Summer Connections and ESOL Programs, and Alternative High School programs.

Equitable Allocation of Resources among District Schools

During the budgeting process, we carefully evaluate the needs of each school and program. Funding decisions are based on key criteria, some of which are uniform, while others are based on special needs at the building level.

Staffing Levels: Student-teacher ratios are established at the district level. Staff are allocated based on the enrollment and, at the high school, the number of students taking a particular course. There are reduced student-teacher ratios at two of our elementary schools based on the educational needs of those students.

Instructional Supplies: Many textbooks and supplies are purchased centrally. In addition, each building receives a per-pupil allocation for locally identified instructional needs.

Building Operating Expenses: The operating and maintenance expenses at each building are centrally funded to ensure an adequately maintained school and a safe and appropriate environment for instruction.
