Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

School District Improvement Plans and Parental Outreach Activities

Willington Public Schools' District Improvement Plan outlines the goals and objectives of the Board of Education. Each year the district data team analyzes scores and makes modifications to the plan based on the new data. The plan includes strategies to address: the whole child, safe schools, student achievement, curriculum and instructional practices, and facilities. The Willington Public School System will monitor the progress of this plan through the collection of data with support from the Board of Education.

Parent outreach included Google surveys, weekly principal newsletters (Digital Backpack), Zoom meetings, social media posts (Twitter and Facebook), and various electronic communications from teachers using Google Classroom and Seesaw.

School counselors, teachers, and administrators meet regularly to review attendance and connect with families to prevent truancy and engage learners. Students also provide SEL utilizing Second Step throughout the year.

The Board of Education's goals include:

Student Growth and Success.The Willington Public Schools will identify, define, and measure the critical skills and attributes that are required for success and foster intellectual risk-taking to increase achievement for all students by providing a rigorous, relevant and engaging curriculum.

School Culture and Climate.The Willington Public Schools will provide a welcoming environment that is socially, emotionally, and physically safe, fosters meaningful collaborative relationships in an innovative culture, and embraces student diversity in an inclusive setting.

Sustainable and Strategic Investments.The Willington Public Schools will identify innovative ways to support the success and growth of all students, ensure fiscal responsibility, and the long-term stability of the district.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Students in kindergarten through eighth grade participate in initiatives at the beginning of the year and during various activities throughout the school year with a focus on kindness and acceptance. In grades kindergarten through eight, Willington students study Spanish with an emphasis on cultural experiences. Middle school students have access to various language learning opportunities through Rosetta Stone as well. Our teachers strive to include a variety of multicultural lessons and materials within every curriculum area that fosters tolerance and respect. Middle school students also participate in curriculum that focuses on building community and teaches empathy, tolerance, and respect. The district continues to direct funds to purchase age-appropriate books at both schools to promote understanding, tolerance, and respect.

Willington Public Schools is committed to addressing and condemning racism directly. Our schools must be a safe place for learning, and racism and injustice have no place in our school or community. Students need to develop into strong individuals who possess the tools to be anti-racist. The district is working to combat social injustice by helping students develop these skills and providing professional development for staff. The Willington Public Schools is in the process of creating a Portrait of the Graduate, a perfect platform for identifying specific curricular grade-level expectations to teach critical skills needed to address social injustice. A district-level committee of community members has also been created to guide this work. Lastly, the district purchased the Second Step SEL program to support our work in this area.

Equitable Allocation of Resources among District Schools

The Willington Board of Education ensures that each school receives a base level of material and financial resources. The base level of support is determined by the approved budget for the year. An assessment of needs is completed by the superintendent and administrators to determine specific program needs. This assessment takes into account such factors as the student population served, the age of school facilities, and student performance compared to local and state programs in order to ensure equity and address district needs. The school principals and the superintendent hold regular meetings that include time spent planning for, and the review of, the allocation of resources. The Board of Education conducts several public hearings and workshops during the budget season allowing input from the community and parents. This facilitates an understanding of the needs of the district and ensures an equitable distribution of resources among the schools.
